

SHRUB PLANTING

NOTES:

1. Drawing in millimetres unless noted otherwise.
2. All weeds shall be removed from the planting areas prior to planting.
3. The subgrade shall be cultivated to a depth of 250mm min.
4. Rocks/clods greater than 50mm shall be broken down or removed.
5. Topsoil shall not be cultivated into underlying soil layers.
6. Trees are to be of good form, health, structure and free of pests and disease. Tree species to be chosen in collaboration with the City Of Port Phillip
7. Plant roots shall be protected from drying influences such as sun, wind and frost.
8. Thoroughly water plants prior to planting.
9. The location of plants is to be established prior to further preparation works.
10. All plants shall be set plum in the centre of the hole and placed to ensure a normal relationship of the crown to the soil surface.
11. All non-native plants shall be fertilised and watered in after planting at the following rates:
 - 200mm pot 'Osmocote' (Long life) 2 teaspoons (20g)
 - 150mm pot 'Osmocote' (Long life) 1.5 teaspoons (15g)
12. Where excavation will occur, contractor must conduct a Dial Before You Dig (www.1100.com.au).
