Councillor Pearl asked what plans does Council have for refurbishing the Sol Green Reserve?

(Cr Pearl)

Response

There are currently no plans to undertake any major works to Sol Green. There are a number of smaller pieces of work scheduled as part of our routine renewal program for the portfolio. These works are based on the latest componentised asset condition assessment, which focuses on safety, security and critical functionality aspects rather than aesthetics. Works scheduled this year and next year include:

2018/19
- External paving and fencing $25K
- Window air/con $5K
- Kitchenette $6K
- Sliding door $8K

2019/20
- Electrical switchboard $8K,
- Timber for pergola $30K
- HVAC $50K

A wider review of the entire portfolio is underway to inform the development of a 10 year plan for the portfolio that lists the priority sites for redevelopment, upgrade, renewal and refurbishment. This work will inform any future larger program of work for Sol Green.
