

Name Craven's Pharmacy

Where 134 Bridport Street, Albert Park
Ph 9690 5426

Proprietor Dino and Robert Ganci

Business message Craven's Pharmacy has been serving Albert Park and surrounding areas since 1884. The Pharmacy is open 9am to 8pm every day of the year including all public holidays. Craven's Pharmacy is slightly different to the ordinary, so come in and experience something a little different.

Energy Electricity use at Craven's Pharmacy is very high for a retail business, with 75% attributed to the abundant lighting. There is the potential for Dino and Robert to save 39% of their electricity bill or more by completely re-examining the way lighting is used in the pharmacy. This could include:

- removing some of the 50 watt halogen spotlights or replacing them with a 30 watt variety that outputs the same amount of light
- replacing the 150 watt halogen downlights with fittings that take compact fluorescent globes
- replacing the 500 watt exterior lights with normal spotlights containing 23 watt compact fluorescent globes

Further savings could be made by using the air conditioning and gas central heating sparingly, or adjusting the thermostat settings.

Rubbish and recycling The main type of waste generated at Craven's pharmacy is cardboard, which is recycled through the council collection.
