Council respectfully acknowledges the Yalukut Weelam Clan of the Boon Wurrung.

We pay our respects to their Elders, both past and present.

We acknowledge and uphold their continuing relationship to this land.

The City of Port Phillip has three wards, each represented by three elected councillors.

The Councillors were elected to the City of Port Phillip for a four-year term on 22 October 2016. The Mayor, Councillor Dick Gross, was elected by the Councillors on 28 November 2018.

Councillors are responsible for setting the strategic direction for the City, representing the local community in their decision making, developing policy, setting service standards and monitoring performance.

The Councillors and I are pleased to release the updates to the City of Port Phillip Council Plan 2017-2027 and Budget for the 2019/20 year.

Now at Year 3 of our comprehensive Council Plan, the endorsement of four key strategies has provided a strong foundation for the continuing rollout of projects, services and facilities that go to the heart of the health and wellbeing of our diverse community.

This is an exciting time, as many of these initiatives were informed by consultation with our community as we worked together to address current - and future - challenges.

Over the last year, projects delivered or close to completion across Port Phillip for our growing population included:

• major improvements to North Port Oval, including ‘rain proofing’ the grounds
• Kirrip Park, Fishermans Bend’s first new park (jointly funded with the Victorian Government)
• redevelopment of the ageing South Melbourne Life Saving Club with a modern fit-for-purpose facility and new kiosk
• works to upgrade the popular JL Murphy Reserve Pavilion and completion of a new Peanut Farm Reserve Pavilion, to improve access for players, including female athletes
• installation of underground tanks at Alma Park to harvest millions of litres of stormwater
• Rainbow Road, a powerful symbol of inclusion adjacent to Fitzroy Street and the Victorian Pride Centre site
• a successful summer management campaign, which featured a strong anti-litter and alcohol ban education component
• extensive renovations to the Council-owned Linden Mansion, home to Linden Gallery.

Delivering these outcomes is all part of our integrated Council Plan’s vision for Port Phillip to remain a bold, liveable, caring and beautiful place, loved by residents and visitors.

Your feedback on proposed changes has helped ensure the Council Plan remains aligned to our key strategies and can adjust to new opportunities and challenges.

While most of the Plan remains the same, amendments for priorities and targets are aimed at further responding to community expectations in areas from climate change and graffiti removal to bin collections and parking management.

In line with our commitment to providing high quality outcomes and services through careful planning and financial management, we will again keep this year’s rate increase (2.5 per cent) within the Victorian Government rate cap.

This is an exciting time, as many of these initiatives were informed by consultation with our community as we worked together to address current - and future - challenges.

Cr Dick Gross
Mayor
City of Port Phillip
We have managed to deliver all of our services, with increased levels in street and beach cleaning, and maintain a cash surplus in case of unexpected events, such as further recycling service disruption.

Endorsed this year, these core strategies provide the blueprint for us to make it easy for people to move around and connect with people and places as our City grows, and to work together on sustainable waste reduction and management.

There will also be actions flowing from Council’s Act and Adapt - Sustainable Environment Strategy 2018-28 and Art and Soul - Creative and Prosperous City Strategy 2018-22, aimed at keeping our City culturally and economically prosperous, and supportive of a diverse and inclusive community.

A partnership approach is crucial to achieving great outcomes so thank you for your contributions to this updated Plan, and encourage you to keep the conversation through other community consultations.

We are lucky to have an engaged and passionate community, and greatly value your feedback and insights as we continue to deliver on our long-term vision for the City set out in our ambitious Council Plan.

Cr Dick Gross
Mayor
City of Port Phillip
MESSAGE FROM THE CEO

We’re committed to ensuring everything we do supports our City to be the bold, liveable, caring and beautiful place people know and love.

Our Council Plan sets a big agenda for our City seeing us through to 2027 and it ensures we’re investing where we need to, we’re equipped to manage emerging issues and we’re set up for lasting success.

By 2027 Port Phillip’s population is expected to grow by 23 per cent, to more than 136,000 people. This level of growth means we’ll experience increased demand for Council services and more pressure on infrastructure.

This year, we’ve updated the Council Plan with improved information to reflect our long-term goals and increasing costs. Our Budget 2019/20 follows the previous two years’ careful financial management and we’ve planned for a moderate cash surplus to respond to increasing costs and emerging issues.

We’ve identified $2.4 million of permanent efficiency savings ($13 million over the last six budgets), meaning we have been able to absorb some cost increases and reinvest in services such as litter cleaning, graffiti and drainage management - all while retaining low levels of debt.

The Budget 2019/20 also contains a significant program for the year including a $44.7 million capital works portfolio and major transformation of our systems to deliver improved customer and digital experiences.

We are committed to making the right decisions today to provide a solid foundation for Port Phillip. We’re ready for future and excited to work with the community - our customers - and we’re driven by the desire to keep Port Phillip a bold, liveable, caring and beautiful place.

Peter Smith
Chief Executive Officer
City of Port Phillip

The plan represents an evidence-based and financially disciplined response to risks and opportunities that are emerging, such as public safety, changes in the recycling industries and disrupting service models.
We are real.
ABOUT THIS PLAN

This Plan sets out what we want to achieve for the City of Port Phillip by 2027, and how we will support the current and future health and wellbeing of the City and our people.

This Plan delivers on our Victorian local government planning obligations under the Local Government Act 1989 and the Public Health and Wellbeing Act 2008. These obligations determine how we plan for community needs and aspirations over the long, medium and short term, and hold ourselves accountable.

This single, integrated plan delivers our council plan, municipal public health and wellbeing plan, strategic resource plan, 10-year financial outlook, and annual budget.

The Plan is supported by the Port Phillip Planning Scheme and detailed strategies and delivery plans that will help deliver our vision and the outcomes we are committed to. Within the organisation, department and individual employee plans are also aligned to support the delivery of the Council Plan.

We are committed to a continuous cycle of planning, implementing, reporting and review to ensure we deliver the best outcomes for the community. This Plan will be reviewed, updated and improved every year. In particular, we will improve over time the way we measure our performance and how we plan, report and engage at the neighbourhood level.

We will regularly report on our progress towards achieving the outcomes of this Plan, our financial performance and project delivery. These reports, and our annual reports, are available online at portphillip.vic.gov.au

Integrated planning and delivery framework
PARTNERS TO OUR PLAN

Local government plays a key role in protecting and enhancing the liveability and wellbeing of our current and future communities. We are well positioned to directly influence vital factors like transport and land use planning, housing, protection of the natural environment and mitigating impacts of climate change, fostering local connections, social development and safety.

This Plan sets out how we, and agencies working in Port Phillip, will work together to improve community outcomes.

We will partner with other levels of government, community, not-for-profit and business organisations, service providers and residents, to develop, implement and evaluate projects, programs and policies that deliver our vision and improve the health and wellbeing of our people and places.

Yearly
- Budget
- Neighbourhood profiles
Each year we undertake a review of our Council Plan to ensure to determine whether strategies, actions and measures require adjustment. We also develop an annual Budget, which includes detail on capital and operating programs.

Below are the amendments to our Council Plan adopted on 20 June 2018.

SERVICES AND ALIGNMENT TO STRATEGIC DIRECTIONS

We have increased the number of service categories that define the services we provide across the six strategic directions, from 26 to 28. The services under ‘Governance and engagement’ have been allocated to two new service categories: ‘Community engagement’, and ‘Governance, risk and policy’. Equally, the services under Technology, transformation and customer experience’ have been allocated to ‘Customer experience’ and ‘Technology’. All services sit under Strategic Direction 6: Our commitment to you.

We have renamed ‘Waste reduction’ to ‘Waste management’ and transferred all waste management activities previously under the ‘Amenity’ service category to ‘Waste management’. ‘Waste management’ covers all waste activities including kerbside refuse and recycling, hard and green waste, street litter bins, and the resource recovery centre. Inclusion of all waste related activities is consistent with the recently adopted Don’t Waste It! - Waste Management Strategy 2018-28.

The ‘Amenity’ service category and related four-year priorities have been transferred from Strategic Direction 3: We have smart solutions for a sustainable future, to Strategic Direction 4: We are growing and keeping our character. The activities under ‘Amenity’ include street and beach cleaning, graffiti management, maintenance of foreshore, drainage network and public toilets. We believe these activities are more aligned to Outcome 4.1: Liveability in a high-density City.

We have renamed the ‘Markets’ service category to ‘South Melbourne Market’ to increase transparency of the South Melbourne Market operations and priorities. Costs and revenues associated with the Esplanade and other markets in the municipality have been transferred to the ‘Festivals’ service.

The changes above will lead to significant variations to financial information reported in previous versions of the Council Plan about these services.

FOUR-YEAR PRIORITIES

We have made minor edits to eight four-year priorities:

- **Outcome 1.1**, first priority
  - ‘Plan and deliver a long-term program of sports field and pavilion upgrades...’ now includes specific initiatives such as JL Murphy Reserve Pavilion upgrade and South Melbourne Life Saving Club redevelopment

- **Outcome 1.3**, third priority
  - ‘Complete the review of children’s services...’ includes a statement to implement any changes arising from the review

- **Outcome 1.4**, fourth priority
  - ‘Review the Port Phillip Social Justice Charter’ has been updated to reflect broader corporate social responsibility work being undertaken that will include the review of the Social Justice Charter

- **Outcome 2.1**, first priority
  - ‘Develop and deliver an Integrated Transport Strategy...’ has been updated to reflect that the strategy, Move, Connect, Live, was endorsed in September 2018 and delivery has commenced
• **Outcome 2.2**, first priority
  - 'Develop a Parking Management Plan…' has been updated to reflect that Council's approach to parking management is a key action articulated in the Move, Connect, Live - Integrated Transport Strategy 2018-28 and will be addressed through this mechanism, despite a formal parking management plan not being developed. Therefore, the priority is now completed

• **Outcome 3.5**, first priority
  - 'Develop and implement a new municipal Waste and Resource Recovery Strategy…' has been updated to reflect that the strategy, Don't Waste It! was endorsed in September 2018 and delivery has commenced

• **Outcome 4.1**, third priority
  - '…manage soil contamination…' has been changed to "manage site contamination", which covers soil and groundwater contamination, reflecting a change in legislation

• **Outcome 4.1**, ninth priority
  - 'Continue to improve community safety…' has been refined to include implementation the Community Safety Plan

We have also included a new priority relating to graffiti management and the implementation of Council's Graffiti Management Plan, which was adopted on 15 May 2019 following community consultation:

• 'Implement Council’s Graffiti Management Plan, which provides direction for the removal and management of graffiti’ sits as a priority under Outcome 4.1.

### OUTCOME INDICATORS

Outcome indicators and their targets have been updated to be consistent with the recently adopted core strategies: Move, Connect, Live - Integrated Transport Strategy 2018-28 and Don’t Waste It! - Waste Management Strategy 2018-28.

We have:

- replaced the measure regarding residents reporting choosing sustainable transport option to travel to work with the following measures and associated targets from the Move, Connect Live - Integrated Transport Strategy 2018-28:
  - number of private passenger vehicles trips
  - number of walking trips
  - number of bike riding trips
  - number of public transport trips
  - number of cars owned by Port Phillip residents.

- included the agreed 2027 target for the number of fatal and serious traffic collisions involving all road users (<96) and moved the measure of school travel participation to the service measure section

- made minor changes to align the outcome measure and target descriptions with language used in Act and Adapt - Sustainable Environment Strategy 2018-28 and Don’t Waste It! - Waste Management Strategy 2018-28 including adding measure of gross greenhouse gas emissions, electricity from renewable sources, apartment and house waste diverted from landfill, reduction in waste produced by houses and apartments and hard rubbish collection diverted from landfill:
  - total canopy cover - updated 2020/21 target to 19.2 per cent
  - hard and dumped rubbish diverted from landfill - we are industry leaders in this space and set a target to maintain 70 per cent diversion
  - municipal-wide greenhouse gas emissions - no interim targets have been set. This will be set by 31 March 2020, when the Victorian Government releases its interim targets for 2025 and 2030.

The remaining indicators do not have annual targets due to the current uncertainty of the recycling industry:

- House kerbside collection waste diverted from landfill
- Apartment kerbside collection waste diverted from landfill
  - reduction in waste produced by houses
  - reduction in waste produced by apartments

The outcome indicator on people employed in the Top 5 industries as a proportion of total employment in the municipality has been removed, as data has been trending downwards due to diversification of industry and employment across the municipality, and downward trends in construction. The current Top 5 industries are: professional, scientific and technical services, construction, health care and social assistance, accommodation and food services.

Based on results obtained from the 2017/18 community satisfaction survey, five per cent of our community participate in community engagement activities. An increase of 0.5 per cent per year has been anticipated and the targets have been set to reflect that. Proposed targets are as follows:

2019/20 6 per cent, 2020/21 6.5 per cent and 2026/27 9.5 per cent.
Changes to this plan

SERVICE PERFORMANCE MEASURES AND TARGETS

We have added three new measures:

- Cost of sealed local road resealing per cubic metre - a measure in addition to the cost of sealed local road resealing measured on a square metre basis (which is required by legislation). The square metre basis does not reflect that a significant proportion of Council’s road resealing is on roads with high use, requiring a thicker base.

- Days between receipt and first response for all local laws requests, with a target of less than three days. There are currently no service measures in the Council Plan for local laws activities, and this is a measure of efficiency in the service.

- Total recordable injury frequency rate per million work hours - added to reflect the importance of a safe working environment. The target will be based on the average of past performance.

Strategic Direction 1: We embrace difference and people belong

The following measures and targets have been amended:

- Council facilitated units on Council land - we have included a note to state that target for 2025/26 will be an additional 170 units, this is consistent with In Our Backyard strategy.

- Community rating of Council’s recreational facility performance (index) - we have changed the target from >80 to >75 based on professional advice from our survey providers that while this is technically achievable, it is a stretch target for a service that is already one of our highest rated services, and is one of the highest results in Victoria.

Strategic Direction 2: We are connected and it’s easy to move around:

- The following measures have been added, consistent with Move, Connect, Live - Integrated Transport Strategy 2018-28:
  - Number of schools participating in ‘Walk to School’ month
  - Number of schools participating in ‘Ride to School’ day
  - Number of car share vehicles based in Port Phillip.

- Resident satisfaction with transport planning policy, safety and design - we have replaced the measure with ‘community satisfaction with traffic management’ presented as an indexed result with a target of >55 as adopted in Move, Connect, Live - Integrated Transport Strategy.

- Cost of sealed local road reconstruction - we have set a target of $0 in 2019/20 and 2020/21 as we have previously indicated we would not be undertaking road reconstruction for three years.

- Megalitres of water use from alternative sources - increased 2019/20 target from 15ML to 20ML due to works undertaken at Alma and Elwood parks.

- Total suspended solids removed from stormwater (tonnes) - changed measure to ‘Total suspended solids removed from stormwater through Council projects (tonnes)’, as the current measure includes assumptions about private development contributions to targets. The target for 2019/20 is 70.8 tonnes, and for 2020/21 is 87.5 tonnes.

- The following waste management measures and targets have been updated:
  - Council waste production per FTE (tonnes) - measure has been amended to be consistent with Don’t Waste It! - Waste Management Strategy, with no separate annual targets due to uncertainty of the recycling industry.
  - Kerbside bin collection missed - lowered the target in alignment with our service contract. A target of 4.35 is industry leading with Victorian average result of 5.05 in 2017/18 and Metropolitan average of 6.09.
  - Total suspended solids removed from stormwater (tonnes) - changed measure to ‘Total suspended solids removed from stormwater through Council projects (tonnes)’ as the current measure includes assumptions about private development contributions to targets. The target for 2019/20 is 70.8 tonnes and for 2020/21 is 87.5 tonnes.

Strategic Direction 3: We have smart solutions for a sustainable future:

- The following sustainability measures and targets have been updated:
  - New trees planted per year - target for new trees planted increased to 1,200 from 1,055 in 2019/20.
  - Megalitres of water use from alternative sources - increased 2019/20 target from 15ML to 20ML due to works undertaken at Alma and Elwood parks.
  - Total suspended solids removed from stormwater (tonnes) - changed measure to ‘Total suspended solids removed from stormwater through Council projects (tonnes)’, as the current measure includes assumptions about private development contributions to targets. The target for 2019/20 is 70.8 tonnes, and for 2020/21 is 87.5 tonnes.
Strategy Direction 4: We are growing and keeping our character:

- The following health measure and target have been updated:
  - All critical and most major non-compliance notifications about food premises followed up on the due date - increased the 2019/20 and 2020/21 targets to greater than 95 per cent.

Strategic Direction 5: We thrive by harnessing creativity:

- The following library measures and targets have been updated:
  - Number of collection items purchased in the last five years (standard of library collection) - increased the 2019/20 target from 48 per cent to 49 per cent
  - Visits to library per capita - lowered 2019/20 and 2020/21 targets as we have seen a drop in the total number of visitors to our libraries over the last two years. The drop in physical visits is supported by an increase in e-resources, which is not captured in the measure. We are looking at ways in which we can measure library utilisation that adequately incorporates e-resources and visits or site attendance.

Strategic Direction 6: Our commitment to you:

- The following technology, transformation, and customer experience measures and targets have been updated:
  - Community time saved - increased the 2019/20 target from 10,000 wait days to 11,000. This is consistent with the 2020/21 target of 12,000 wait days
  - Staff time saved - lowered the 2019/20 target from 5,000 hours to 4,000. This is consistent with the 2020/21 target of 3,000 hours.

OUR BUDGET FOR 2019/20

The budget for 2019/20 includes:

- a rate increase of 2.50 per cent, which is equivalent to project CPI growth and the rates cap, set by the Victorian Government
- an increase in most fees and charges by 2.75 per cent
- $2.4 million of efficiency savings, adding to the $11 million of savings delivered over the previous five budgets
- no increase to an already low debt position
- $65 million invested in projects to maintain, grow and improve services and assets
- a cash surplus of $0.43 million, in line with our financial strategy target of $0.5 million
- service level increases for street cleaning services, graffiti removal and amenity issues management
- increased base funding of $115,000 for the EcoCentre to support their operations. and entering a 12 month agreement with the National Trust of Australia for free Port Phillip resident access to Ripponlea Estate ($20,000 with incentive based bonuses up to an additional $30,000).

In preparing the Budget we had to absorb additional cost pressures:

- annual inflation adjustments for enterprise contracts
- Enterprise Bargaining Agreement increments for our staff (under negotiation)
- additional security budget required to mitigate safety risk to the community and staff
- increasing water charges reflecting greater usage required to maintain our parks, ovals and gardens - mainly caused by below average rainfall
Changes to this plan

- lower parking income from Fisherman’s Bend, resulting from a fee reduction effective from March 2019
- higher prices from new contract tenders, including South Melbourne Market cleaning
- higher parking doubtful debts provisions due to the current inability of Fines Victoria to collect outstanding parking fines on our behalf.

For more summary information on the Budget 2019/20, please refer to ‘Financial Summary’ in Section 1 of this document.

FEES AND CHARGES

In most cases, fees and charges for 2019/20 have increased by 2.75 per cent. This approach is consistent with our financial strategy, and community feedback, which supported increasing user charges for some services. There will be variances where minor rounding equates to larger or smaller percentages.

There are some exceptions:

- merchant fees structure updated to reflect varying cost of payment options: American Express 0.65 per cent; EFTPOS and Debit cards 0.59 per cent; and Visa/ Mastercard credit cards 1.16 per cent. This complies with Australian Competition and Consumer Commission requirements
- general Local Law permit fee to increase by $45 (22 per cent) reflecting the amount of time required to process the permit and to recover the cost of the service
- application fee for the removal of a Significant Tree ‘a tree with a trunk circumference of 150 centimetres or greater, measured one metre above ground level, or with multiple stems where the circumference of its exterior stems is equal to, or greater than 150 centimetres when measured one metre above ground level’ to increase by $25 (17 per cent) to preference tree pruning over tree removal
- Food Services meal fee structure updated to ensure equity and based on user’s income level in accordance with the guideline set by the Victorian Government’s Home and Community Care Program for Younger People. High income users will be paying $21 per meal, an increase of 228 per cent
- street occupation permits to increase between 19 per cent to 50 per cent based on benchmarking exercise performed against neighbouring councils
- Vehicle Crossing permit application fee to increase by $100 (67 per cent) reflecting the amount of time required to process the permit and to recover the cost of the service from users
- new event fees, setting multiple hour (block) rates instead of hourly rates, and fee adjustments to be consistent across the service. The fees have been benchmarked to ensure we remain price competitive with neighbouring councils
- some St Kilda Festival fees to increase by approximately 7.5 per cent. They remain fair and affordable in comparison to the income generated from the festival by traders and reflect increased costs in running the event.

Some fees were kept to 2018/19 levels and or reduced to incentivise greater community usage. These include:

- town hall standard hire fees to reduce by approximately 23 per cent, with an expected corresponding uplift in utilisation
- no increase to community facilities hire fees or Adventure Playground party hire fees.

There are some new fees in 2019/20 to help manage demand and prevent cross-subsidisation of services by ratepayers:

- new building fees introduced on a cost recovery basis including:
  - Report and Consent Advertising fee set at $66
  - Building Audits Inspection fee set at $180
BUDGET CHANGES

Included within the Budget are the following increases to initiatives that are required to either maintain services (above inflationary pressures) or increase service levels:

- stormwater pipe cleaning maintenance required to clear backlog of maintenance. ($624,000)
- address security and public safety concerns, including at South Melbourne Market. ($488,000)
- leaf litter cleaning (fortnightly) during the Autumn season and additional litter cleaning of feeder streets surrounding shopping precincts. This increased service level is in response to community feedback from the recent Clean Streets service review. ($261,000)
- irrigation for an additional 12 parks. ($110,000)
- funding for the Graffiti Paint Out Program to meet community demand and maintain current service levels. ($150,000)
- a property advisor (two-year position) to support property operations improvement, reactive issues management and Property Policy implementation. ($100,000)
- extension of two existing eight-month amenity officer positions to 12 months to support current work on homelessness response, and to provide increased dog off lead patrols and after hours amenity response. ($51,000)

CHANGES TO OUR PROJECT PORTFOLIO

The figures supporting our project portfolio have been updated based on the April 2019 forecasts, and includes $7.6 million deferrals from 2018/19 into 2019/20.

- Elwood Foreshore Facilities Strategy - succession plan for building assets on the Elwood foreshore. ($150,000)
- Middle Park Beach renourishment - to replenish the artificially made Middle Park Beach in accordance with the Victorian Government Funding Deed. ($400,000)
- Placemaking Program, Renew Australia, Fitzroy Street leasing project - work with owners of vacant premises in Fitzroy Street to place temporary tenants into confirmed tenancies over two years. This initiative is subject to funding from other partners. ($150,000 over two years)
- South Melbourne Precinct - to review and update planning and design controls in South Melbourne to align partnership, employment and sustainability goals outlined in key Council strategies. ($70,000)
- Local Area Traffic Management Infrastructure, Rouse Street, Port Melbourne - to install raised pavement intersection treatments along Rouse Street. Jointly funded with VicRoads. ($100,000 total amount, Council’s contribution is $50,000)
Changes to this plan

- **Pocket Parks** - this is a Victorian Government election commitment. To design two pocket parks. Location of pocket parks (which are currently unknown) are subject to the Department of Environment, Land, Water and Planning criteria for the commitment. **($50,000)**

- **Rotary Park Playspace Development** - to undertake a more standard nature-based playspace upgrade like our current park and playground program projects. Partly funded by the Stokehouse ($75,000) and Rotary ($15,000), Council’s contribution is $260,000, to be funded from drawdown of reserves. **($350,000)**

- **South Melbourne Town Hall renewal and upgrade** - to repair the existing building structure and other renewal works identified from building condition reports following the collapse of a portion of the first floor west wing ceiling. **($3,700,000)**

- **Sports Fields Upgrade program** - High use areas - in addition to the replacement of sports fields with natural turf, this initiative will upgrade sports field high traffic usage areas (interchange benches, near goals and various entry gates) with hybrid or synthetic grass throughout the municipality. To be funded from drawdown of reserves. **($300,000)**

- **St Kilda Pier Foreshore upgrade** - there is a Victorian Government election commitment to rebuild St Kilda Pier. We will work with the Victorian Government to ensure complimentary design works on Council land to support the St Kilda Pier project. **($130,000)**

- **Standard drawings and designs** - an annual program to develop standard drawings and designs for all council infrastructure assets. This will allow better maintenance and renewal of our assets. **($150,000)**

- **Workplace Plan Implementation** - to implement the five-year workplace plan developed in 2018/19, including renewal of existing staff work spaces to maximise use and productivity, and fitout of a new interim five-year workspace that will ultimately replace occupation of 232 Carlisle Street.  **(1,800,000, of which $1,300,000 is funded from the Asset Renewal Reserve)**

- **Major changes to existing projects:**
  - **Fisherman’s Bend program** - the program has been extended to support a series of key planning activities, including completing precinct planning across all three precincts in the City of Port Phillip.
  - **Kerferd Road safety improvements** - $2 million is deferred to 2021/22, while Council awaits details on the Victorian Government’s Shrine to Sea initiative.
  - **Land acquisition - Sustainability Hub** - $17 million is deferred to 2020/21, while Council identifies partnership funding.
  - **South Melbourne Life Saving Club Redevelopment** - a net bring forward of $1.5 million from 2019/20 to 2018/19 due to delivery progress ahead of schedule.
  - **South Melbourne Market Compliance** - funding has increased to $1.2 million, with $700,000 to be funded from the Asset Renewal Reserve, for additional compliance expenses.

- **Project name changes:**
  - **Bike Infrastructure delivery and Pedestrian Infrastructure delivery programs** - these programs replace the Walk and Bike Infrastructure delivery program previously identified in the Council Plan.
  - **Bubup Nairm rectification works** - previously within the Building Safety and Accessibility Program, to undertake works to meet building codes and IOS Standards.
  - **Greening Port Phillip Strategy Implementation Program** - this replaces the annual street tree and park tree improvement programs.
  - **Tram Infrastructure partnership delivery** - an annual program aligned to Move, Connect, Live, it also replaces the Fitzroy Street streetscape upgrade Stage 2 project, which will now take place in 2019/20.

The complete list of capital and operating projects in 2019/20 is contained within Section 3 of this document.
We are bold.
We are real.
Section 1
Port Phillip Today and Tomorrow
OUR CITY AND OUR PEOPLE

The Yalukut Weelam clan of the Boon Wurrung are the first people of the City of Port Phillip, with a continued strong connection to the land. Yalukut Weelam means ‘river home’ or ‘people of the river’ reflecting the original prevalence of wetlands between the Yarra River and the foreshore - a landscape that has altered vastly since European settlement.

Port Phillip is one of the oldest areas of European settlement in Melbourne, known and treasured by many for its urban village feel and artistic expression. It is a city of neighbourhoods, each with its own character, defined by heritage buildings, strip shopping precincts and treelined streets.

Port Phillip is one of the smallest municipalities in Victoria, only 21 square kilometres, and the most densely populated with more than twice the population density of the metropolitan Melbourne average.

A popular inner city area of Melbourne, Port Phillip attracts more than 2.8 million visitors each year ¹, making it one of the most visited places in metropolitan Melbourne, second only to the central business district. The foreshore that stretches over 11 kilometres, and vast public open spaces, make our City highly desirable to residents and visitors.

As we look to 2050, we know that the world will be different. Our physical environment will be more volatile and hostile, technology will continue to rapidly evolve and our urban environment will be more dynamic as information becomes more readily available at all times. Our public places and spaces will significantly change and evolve as residential and mixed use development continues and density increases. Significant population growth is expected over the next 40 years, particularly in the Fishermans Bend renewal area on the northern edge of the City, and in established neighbourhoods like St Kilda Road and South Melbourne.

This Plan is shaped by our desire to celebrate our history, protect our character, and encourage inclusion and creativity, while planning for the future of a dynamic and evolving City.

**OUR HEALTH AND WELLBEING**

Integrating health and wellbeing into the Council Plan

Socioeconomic factors and the natural and built environment impact on health. By working collaboratively with other levels of government, service providers, business and community, we can reduce inequalities and optimise the conditions in which people can be healthy. In this way, we hope to provide coordinated, robust and appropriate responses, including:

- supporting the delivery of an integrated transport network that connects people and places
- designing infrastructure that creates a greener, cooler and more liveable City
- advocating for and facilitating partnerships to support delivery of diverse, affordable housing
- developing policies and programs that strengthen the community to prevent crime, injury and ill-health, and foster positive social and health change.

The six strategic directions of this Plan have been informed and guided by analysing population health data, community consultation and stakeholder feedback, and reviewing international, national, state and local research and policy, and the Victorian Public Health and Wellbeing Plan 2015-2019. This ensures we play our role in achieving the State vision of ‘a Victoria free of the avoidable burden of disease and injury, so that all Victorians can enjoy the highest attainable standards of health, wellbeing, and participation at every age’.

Understanding health

We have embedded the World Health Organisation definition of health in this Plan. That is, ‘a state of complete physical, mental and social wellbeing and not merely the absence of disease or infirmity’.

To support this holistic view of health and wellbeing, we need to understand what influences health outcomes. Influences include biological factors and the conditions in which people are born, grow, live, work, play and age - known as the social determinants of health. The Social Model of Health diagram shows this best, with individuals at the centre. This model guides our efforts and those of our partners to promote conditions that support people to be healthy.

We know that there will always be differences in health status in our community. These differences do not happen by chance. They follow social patterns and a trajectory by which an individual’s overall health tends to improve at each step up the economic and social hierarchy. That is why we have a role in working to reduce health and wellbeing inequalities, by committing to prevention and early intervention across the life course and by embedding health equity and social justice principles in everything we do.

SOCIAL MODEL OF HEALTH

- General socioeconomic, cultural and environmental conditions
  - Political landscape / Built environment / Social justice / Health equity
- Living and working conditions
  - Work environment / Education / Unemployment / Water and sanitation / Health care services / Housing / Agriculture and food production
- Social and community networks
  - Social participation / Family / Friendship
- Individual lifestyle factors
  - Diet / Exercise / Smoking / Alcohol / Illicit substances
- Age, sex and constitutional factors
  - Age / Gender / Ethnicity / Ability

53% 4X STATE AVERAGE 1.5X STATE AVERAGE $50

- Have at least one chronic disease

- Family violence incidents
- Experienced anxiety or depression in their lifetime
- Feel safe walking alone during the day
- Excellent/very good health status (self-reported)
Our health and wellbeing

Port Phillip’s health profile

Victorians’ health and wellbeing is high by international standards and significant gains have been made in recent years. The health and wellbeing of the Port Phillip community is similarly relatively high.

Available data shows that we are similar to the Victorian average in terms of general wellbeing, life satisfaction, daytime safety, resilience, levels of psychological distress, participation in health screening activities (for example, blood pressure check), neighbourhood cohesion, social trust, willingness to intervene in a situation of family violence, and fruit, vegetable and water consumption.

Our community has some more favourable outcomes than the Victorian average, such as levels of physical activity and obesity, smoking rates, income and socioeconomic indicators, and some chronic diseases. Port Phillip also has higher than average levels of gender equity awareness, which contributes to lower rates of family violence. Our efforts in these aspects of health and wellbeing must continue to maintain these positive outcomes.

Favourable health outcomes

<table>
<thead>
<tr>
<th>Health indicator</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Personal safety</strong></td>
<td>Almost two thirds of Port Phillip residents feel safe walking alone in their local area after dark, which is higher than the state average.</td>
</tr>
<tr>
<td><strong>Physical activity</strong></td>
<td>The percentage of people who do not meet physical activity guidelines is the lowest in the state.</td>
</tr>
<tr>
<td><strong>Diet</strong></td>
<td>Port Phillip residents eat significantly more serves of vegetables per day than the state average.</td>
</tr>
<tr>
<td><strong>Obesity</strong></td>
<td>The rate of reported obesity is the lowest in the state.</td>
</tr>
<tr>
<td><strong>Smoking</strong></td>
<td>Our smoking rate is significantly lower than the state average.</td>
</tr>
<tr>
<td><strong>Culture</strong></td>
<td>The percentage of people who believe multiculturalism makes life better is among the highest in the state.</td>
</tr>
<tr>
<td><strong>Income</strong></td>
<td>The median household income is among the highest in the state and the percentage of people with income less than $400 per week is the lowest in the state.</td>
</tr>
<tr>
<td><strong>Housing stress</strong></td>
<td>The percentages of households with mortgage stress and rental stress are among the lowest in the state.</td>
</tr>
<tr>
<td><strong>Social housing</strong></td>
<td>The percentage of social housing is among the highest in the state.</td>
</tr>
<tr>
<td><strong>Public transport</strong></td>
<td>Use of public transport to get to work is one of the highest in the state.</td>
</tr>
<tr>
<td><strong>Arthritis / Diabetes</strong></td>
<td>The percentage of people reporting arthritis is the lowest in the state, and the percentages reporting type two diabetes and high blood pressure are among the lowest.</td>
</tr>
<tr>
<td><strong>Breastfeeding</strong></td>
<td>Infant breastfeeding rates are among the highest in the state.</td>
</tr>
<tr>
<td><strong>Childhood literacy</strong></td>
<td>The percentage of children with speech or language problems at school entry is among the lowest in the state.</td>
</tr>
</tbody>
</table>
However, we also experience less favourable outcomes. Areas of concern include use of alcohol and illicit drugs, crime, sedentary work behaviours, housing affordability, people experiencing homelessness, and sexually transmittable infections.

This Plan seeks to understand the complexities of these outcomes, and identify how we can work together with our partners to improve our health and wellbeing.

### Unfavourable health outcomes

<table>
<thead>
<tr>
<th>Health indicator</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Criminal offences</strong></td>
<td>The rate of criminal offences is among the highest in the state.</td>
</tr>
<tr>
<td><strong>Working hours</strong></td>
<td>We have significantly higher levels of time spent sitting on a usual work day than the state average.</td>
</tr>
<tr>
<td><strong>Alcohol related harm</strong></td>
<td>We have significantly greater number of residents identified as being at risk of short-term harm from alcohol, and the number of people identified as being at very high risk of short-term harm is the highest in the state.</td>
</tr>
<tr>
<td><strong>Alcohol consumption</strong></td>
<td>We have significantly greater number of residents who agree that getting drunk every now and then is okay.</td>
</tr>
<tr>
<td><strong>Alcohol related injuries</strong></td>
<td>We have significantly higher rates of alcohol related ambulance attendances, hospitalisation, emergency department presentations and assault, including the highest rate of male alcohol-related hospitalisations in the state.</td>
</tr>
<tr>
<td><strong>Pharmaceutical related injuries</strong></td>
<td>We have significantly higher rates of pharmaceutical related ambulance attendances.</td>
</tr>
<tr>
<td><strong>Illicit drug related injuries</strong></td>
<td>We have significantly higher rates of illicit drug related ambulance attendances (in particular for amphetamines, methamphetamines and ecstasy) and the highest hospitalisation rate in the state.</td>
</tr>
<tr>
<td><strong>Neighbour support</strong></td>
<td>The percentage of people who feel they are able to get help from neighbours is among the lowest in the state.</td>
</tr>
<tr>
<td><strong>Rent</strong></td>
<td>The median weekly rent for a three-bedroom home is the highest in the state and the median house price is among the highest in the state.</td>
</tr>
<tr>
<td><strong>Homelessness</strong></td>
<td>The estimated rate of homeless people per 1,000 population is the third highest in the state.</td>
</tr>
<tr>
<td><strong>Sexually transmitted diseases</strong></td>
<td>We have higher rates of sexually transmittable infections.</td>
</tr>
</tbody>
</table>
Our challenges

We have identified seven significant, long term challenges facing our City, that we have considered when developing this long term Plan.

How we respond to these challenges impacts the liveability of our City and the health of our community, and has shaped this Plan and the services we provide.
Climate change

Port Phillip is already experiencing the impacts of climate change, including temperature increases (of between 1.2 and 1.4 degrees since 1950), lower than average rainfall (a decrease of between 100 and 200 millimetres since 1950), more flooding, sea level rise (of between 0.08 to 0.20 metres above the 1986-2005 level), and a notable increase in the number of days over 35 degrees.  

Our City is Melbourne’s playground. The beach lifestyle and coastal activities are very attractive and important to the health and enjoyment of residents and visitors. However, Port Phillip is built on reclaimed land to the south and north. Much of the City is only one to three metres above sea level and coastal areas are exposed to the impacts of climate change, especially flooding and erosion.

Port Phillip is located at the bottom of the Elster Creek and Yarra River catchments, requiring a regional ‘whole-of-catchment’ partnership approach to enable both proactive and emergency flood management responses.

We can expect increased flooding of coastal properties and public amenities, storm damage to infrastructure, beach erosion, decreased water quality and security of water supply, reduced summer outdoor activities and hotter urban spaces. Changing environmental conditions may challenge some members of our community to stay healthy and safe. For example, those experiencing health or housing crises will be more vulnerable to periods of extreme heat or cold.

This will have an impact on council services. Assets may be unable to provide the same level of service to the community. In particular, drainage (currently beyond capacity) and council facilities may become cost-prohibitive to operate if they are not developed to the required sustainable design standards.

Greenhouse gas emissions reduction is one important way to address climate change and avoid dangerous temperature increases. Ninety-nine per cent of Port Phillip emissions are community generated, and these are increasing as our City grows and reliance on car travel continues.

2 Climate Ready Victoria: Greater Melbourne, November 2015, State of Victoria Department of Environment, Land, Water and Planning
Our challenges

Population growth

Port Phillip’s population is expected to grow to more than 168,549 people by 2041, a significant 52 per cent increase from the 2017 estimate of 110,942 people. Over the life of this Plan, our population is expected to grow by 23 per cent to 136,140. In 2041, the population will continue to be highly mobile and dominated by 25-39 year olds, but with an increasing number of older people. The forecast median ages for the Fishermans Bend suburbs (Montague and Sandridge/Wirraway) are 32 and 29 years of age respectively. Our community will likely become more diverse as the number of people born overseas grows. More than two-thirds of our households will be single person or couples without children. Population growth and associated demographic and socio-economic shifts will increase demand for all Council services and amenities.

Our worker population will also rise dramatically. Fishermans Bend is expected to cater for 80,000 jobs by 2050, with just under half of these jobs (34,000) projected to be within Port Phillip. Adjacent municipalities are also expected to grow significantly. The population of the City of Melbourne is projected to double over the next 30 years.

Growth will not be uniform across our City. The St Kilda Road, Sandridge/Wirraway and Montague neighbourhoods are projected to grow significantly. Other established neighbourhoods will experience slower population growth. Health inequities and wealth disparity may be exacerbated if people find it difficult to access programs, services and amenities that support health and wellbeing. Coupled with the increasing cost of providing services, increasing demand will stretch services and infrastructure. Achieving a balance between the economic benefits of tourism and thriving entertainment and shopping precincts, and minimising social harm and protecting residential amenity may become more challenging.

Rapid evolution of technology

The world is becoming more connected. People, businesses and governments are increasingly moving online to connect, deliver and access services, obtain information and perform activities like shopping and working. Technology is also changing the way our residents work. Around one in every 18 employed persons works from home. We can expect increasing demand for Council services to be delivered online, and for engagement through social media and other digital means. We will need to respond to this demand and think about how we operate and support people to connect with Council, particularly those who have limited online access and/or digital literacy.

The digital shift will reshape how we deliver services and engage our community in decision making. Technological advances also present opportunities for Council to consider new methods of service delivery, such as electronic parking management, that have the potential to offer efficiencies and improved community outcomes. New technologies will enable our workforce to be more mobile and deliver services that support community health and wellbeing where, when and how they want them.
Transport and parking

Integrated transport infrastructure and services support healthy behaviours including safe walking, bike riding and use of public transport, and enjoyment of entertainment precincts, parks and open spaces.

Road network congestion and overcrowding on public transport will continue to be an issue as our population grows. The road network for cars is at capacity and cannot be increased. The Victorian Government is prioritising more efficient and sustainable modes like trams, walking and bike riding. We can expect that, in real terms, road network capacity for private cars is likely to remain static or decrease over time.

Managing on-street car parking for different users - residents, workers and visitors - is also an ongoing challenge. In many parts of the City, demand for parking outstrips supply, and decisions will need to be made about how to best manage the use of this shrinking resource.

Managing congestion as our City grows will only be possible by enabling people to travel by non-car modes. This will require increased investment in walking and bike riding infrastructure, behaviour change initiatives, and partnerships with the Victorian Government to deliver ‘place and movement’ projects that invest in our public spaces and increase public transport service levels, capacity and accessibility.

Traffic and parking congestion has a significant impact on our environment and health, and compromises the liveability of our City. Without safe and accessible transport, some people will be constrained in their ability to stay connected and participate in important aspects of community life, like work, exercise, visiting friends and family, and accessing services and programs.

Increases in car trips cannot easily be accommodated, especially during peak travel times. It is expected that in response there will need to be a real boost in bike riding alongside a continuing shift to travel by public transport and walking, where these alternatives are safe, direct and convenient.

It will be important to ensure our public spaces are places for people, accessible by walking and riding a bike, and offer opportunities to be healthy. Learning from European cities, early planning for high capacity bike parking across the City will be required, with the new Anzac station presenting a significant opportunity.
Our challenges

**Urbanisation**

Population growth will drive an increase in urban density. Fishermans Bend will make a significant contribution to housing growth, with new high density neighbourhoods. The density of established areas across the City will also increase, with the St Kilda / St Kilda West and St Kilda Road neighbourhoods accounting for more than half of the projected housing growth outside Fishermans Bend over the next 20 years.

We will see more medium to high density residential development and continued pressure to convert commercial areas to residential use. If not carefully managed, this could pose a threat to neighbourhood character and heritage.

Compact cities enable more people to be connected to the things they need to be healthy, like public transport, employment, education and services. However, urban environments increase exposure to pollution and traffic accidents, and reduce access to nature and green open spaces. Maintaining liveability in a higher density city will take concerted effort.

Demand for inner city housing increases price, and can constrain socioeconomic and demographic diversity. Higher density, mixed use development means that we are fast becoming a 24-hour City. The ever-growing night time economy, and social issues like drug and alcohol abuse, and family violence, become more visible and intensified in urban areas.

With increasing density and vertical living, more people will use our parks, villages, roads and footpaths, beaches and public transport. Improving travel choices and access to high frequency public transport will ensure liveability for residents, workers and visitors.

Our public spaces and waterfront will need to be welcoming to all and cater for different and increased use as they become residents’ ‘backyards’.

Our neighbourhoods will need to be safe and walkable, with good access to shops and flexible community spaces, and have a balance of residential and business use so we can reap the benefits of a vibrant ‘mixed use’ City and support healthy, active and connected communities.

Housing affordability will continue to be a concern. Housing costs in Port Phillip are twice the Melbourne average, and most low and moderate income households find buying a home and private rentals increasingly unaffordable.
Changing economic conditions

Port Phillip’s economy was close to $12 billion in 2015, contributing 4.2 per cent of the greater Melbourne economy. Our economy grew significantly in the early 2000s, and slowed over the last 10 years, but we experienced 2.9 per cent growth in Gross Regional Product, which is the market value of all final goods and services, between 2013 and 2015.

In recent years, we have experienced some growth in the number of businesses and jobs - particularly in construction, manufacturing and some services. We have a higher than average proportion of professional, scientific and technical services (23.6 per cent compared to 9.1 per cent in Victoria), arts and recreation services (2.8 per cent compared to 1.6 per cent) and information media and telecommunications (4 per cent compared to 2.2 per cent). The South Melbourne precinct has one of the highest concentrations of creative industries in Australia. Despite this, 75 per cent of our working population leave the area for work.

The Port Phillip neighbourhoods in Fishermans Bend are currently home to over 750 businesses and approximately 12,000 workers. The transition of Fishermans Bend to a mixed-use community will have a significant impact on the number and type of businesses and jobs in that area.

Our people can expect to spend more time travelling to work outside of the City. We may also continue to experience a change in the nature of our business community as high rental prices put pressure on smaller businesses.

Socioeconomic factors have a significant impact on health and wellbeing. The spectrum of people considered vulnerable is widening due to increased costs of living, rental and property costs, social exclusion and health inequity. More than 8,000 residents are living in housing stress and 2,500 residents are on the public housing waiting list (excluding local community housing waiting lists). In the last two years, we have seen an increase of 104 per cent in the number of calls received about people sleeping rough in public places. We expect to observe ever-increasing vulnerability in our community.

Legislative and policy influence

All Victorian councils operate in a complex legislative and policy environment that includes many Acts of Parliament and Regulations. The key Act (the Local Government Act 1989) is under review.

Government funding is being reduced or withdrawn from several sectors, placing additional expectation on local government to fill the gap. This trend of government cost shifting, along with increased compliance, will likely continue. Large scale sector reforms will exacerbate this challenge, requiring service model changes that may impact on those in our community with the most complex needs.

In addition, the cap on rate increases means local government’s ability to control revenue is constrained. As a result, we are experiencing increased strain on our financial sustainability. The cap on rate increases is forecast to impact our bottom line by $14 million over the next 10 years if we don’t make changes to the way we operate. Difficult decisions will need to be made about our services, investments and assets to ensure the health and wellbeing of our people and places within these fiscal constraints.
We are liveable. Caring. Bold.
OUR STRATEGIC DIRECTIONS

We will deliver the vision for Port Phillip through six directions. This Plan is structured around these directions and the outcomes for the health and wellbeing of our people and places that we want to see by 2027.

DIRECTION 1
We embrace difference, and people belong

OUTCOMES BY 2027
A safe and active community with strong social connections
An increase in affordable housing
Access to services that support the health and wellbeing of our growing community
Community diversity is valued and celebrated

DIRECTION 2
We are connected and it’s easy to move around

OUTCOMES BY 2027
An integrated transport network that connects people and places
The demand for parking and car travel is moderated as our City grows
Our streets and places are designed for people

DIRECTION 3
We have smart solutions for a sustainable future

OUTCOMES BY 2027
A greener, cooler and more liveable City
A City with lower carbon emissions
A City that is adapting and resilient to climate change
A water sensitive City
A sustained reduction in waste
DIRECTION 4
We are growing and keeping our character

OUTCOMES BY 2027
Liveability in a high density City
A City of diverse and distinctive neighbourhoods and places

TRANSFORMING FISHERMANS BEND

DIRECTION 5
We thrive by harnessing creativity

OUTCOMES BY 2027
A City of dynamic and distinctive retail precincts
A prosperous City that connects and grows business
A City where arts, culture and creative expression is part of everyday life

DIRECTION 6
Our commitment to you

OUTCOME BY 2027
A financially sustainable, high-performing, well-governed organisation that puts the community first
HOW THIS PLAN RESPONDS TO OUR COMMUNITY

The table that follows shows how this Plan responds to our identified emerging health issues and the Victorian Public Health and Wellbeing Plan 2015-19.

There are four emerging health issues for Port Phillip. We determined these by analysing population health data and identifying priorities, and then assessing what impact we can have on the issue.

1. Housing and homelessness
2. Social inclusion and diversity
   Including social network and mental health (prevalence of and lifestyle risk factors).
3. Safety
   Including crime, alcohol, illicit and pharmaceutical drugs and family violence.
4. Access to information and services
   Including health services, maternal and child health, sexual and reproductive health, preventative action, health status, and prevalence of illness and disease.

How the community helped shape this Plan

Your views and aspirations for the City continue to be important contributions to this Plan.

Our plan was developed in early 2017 and was informed by a comprehensive community engagement program asking for your feedback on how to tackle some of the challenges we face and what you value most about the City.

Community engagement was widely promoted through a range of channels, including Council and library websites, social media, advertisements in local newspapers, and email updates to community networks. Postcards were distributed in town halls, libraries, shopping precincts, markets, childcare centres, community centres and other sites across the City. Community ideas and feedback were captured through:

- community surveys
- an avatar survey identifying community personas
- pop-up conversations between the community and Councillors
- targeted focus groups
- stakeholder meetings
- online discussion forums
- special focus workshops to explore particularly significant challenges like transport, parking and managing waste.

Tailored conversations and activities ensured that a range of groups were involved (including some that are typically harder to reach), such as Indigenous, culturally and linguistically diverse and faith-based communities, older people, youth and children. We used several methods, including facilitated focus group conversations, interpreters to assist with completing the community surveys, and translated feedback forms in Greek, Polish and Russian. A large print survey was provided to community members on request, to ensure the engagement was accessible and everyone had an opportunity to contribute their ideas.

We engaged community researchers to conduct surveys that were inclusive of all members of our community, to extend our reach to people who do not typically engage with Council. Community researchers are graduates of the Voices of the South Side program that provides public speaking, advocacy, research, communication and teamwork skills to people who live in social and public housing in Port Phillip.

Survey questions and prompts emphasised the central role that local government plays in creating communities and environments in which people can thrive. We know we have influence over some of the most powerful contributors to health and wellbeing, like employment, social support, land-use planning, transport and access to cultural activities, so we are ideally placed to have a profound impact on the quality of life of our community.

We received more than 2,000 pieces of feedback, and reached 450 people through the tailored engagement with harder to reach groups in our community. 125 groups and individuals made a submission to the draft Plan when it was released in April 2017.

Since the plan was adopted in June 2017 we have continued to have ongoing conversations about how to tackle the challenges and opportunities facing our city and how to support the health and wellbeing of our community.

In April 2018 we released our proposed amendments to the plan, including a draft budget for 2018/19, as well as the draft Sustainable Environment and draft Creative and Prosperous City strategies and asked for your feedback. We received 41 submissions raising more than 90 topics including arts and cultural funding, transport and parking management, children’s services and sustainability.

Since the adoption of the Council Plan in June 2018, we’ve engaged deeply on our transport challenges and opportunities and engaged with our key partners and communities on how we can tackle the challenges associated with the impacts of waste. The Integrated Transport and Waste strategies were adopted on 20 September and this Council Plan has been updated to reflect the longer term outcomes identified in those documents.
More recently we hosted 10 neighbourhood-based pop-up conversations between October and December at venues and local markets around the municipality, supported by an online survey, to find out those services the community thinks are important for Council to provide and services that they use. We received 662 responses with good representation from participants based on gender, age ranges, location and whether they were residents of Port Phillip. Key themes from these conversations included:

- the top three service groups that our community values and uses are: Parks and recreation, Waste reduction and sustainability, and Parking and traffic
- activities where more than 50 per cent of respondents felt were ‘Very Important’ included: Bicycle and pedestrian friendly initiatives, traffic safety improvements, clean streets, beaches and foreshores, waste collection, arts and cultural programs, maintenance of open space, kindergartens, child care and maternal child health, community care services and facilities, and recycling and environmental sustainability.

A second phase of our community engagement will take place on Saturday 4 May. Around 80 invited participants, including representatives from a range of community groups and our nine suburban neighbourhoods, as well as individuals who participated in our first phase of consultation, will attend a community consultation workshop to assist Council to prepare the 2019/20 Budget and guide future budgets.

The workshop will build upon the results in the neighbourhood-based pop-up conversations and online community survey. The workshop will guide participants through a series of discussions and debates about what they think are important services for Council to deliver and what isn’t a priority.

All participants will be provided with information before the workshop that outlines Council’s broad range of services so that you can be well prepared for the discussions.
What our communities value

1. **Supportive City for all**
   There is a desire to support all people in the community, including those who are most vulnerable and from diverse backgrounds, and to invest in supporting healthy living and community wellbeing for people of all ages, abilities and life stages. Council’s role in developing community capacity was emphasised.

2. **Transport choice and parking management**
   Improving transport, traffic management and parking management is one of the City’s greatest challenges. Our community wants a city that makes it easier and more enjoyable to walk, ride a bike or use public transport. There are wide ranging views about how to manage parking.

3. **Creating a sustainable City and managing climate change**
   A cooler City through greening our buildings and streets. A City that has reduced waste going to landfill and increased the use of renewable energy sources. A City and community that has adapted for climate change and reduced the risk of flooding.

4. **Sense of place and community**
   Our communities value the places where they live, including beaches, parks and gardens. Clean, safe, and inviting streets, spaces and amenities are important to our community now and in the future. Protecting heritage and iconic buildings is also considered important.

   **Developing our neighbourhoods in a balanced way**
   How our neighbourhoods can provide for growth, and maintain character is considered a challenge for the City.

5. **Creativity and diversity of the City**
   The culture and vibrancy of Port Phillip is highly regarded and considered part of what makes the City unique.

   **Balancing activation with protecting local amenity**
   Supporting businesses and activating shopping strips is seen as an opportunity. Events, festivals and attractions that bring people to the City need to be managed in a way that protects local amenity.

A full summary of the feedback received is available at haveyoursay.portphillip.vic.gov.au
The Plan identifies priorities that will deliver

An active and well-connected community, with access to services that enhance health and wellbeing. An increase in affordable housing, services targeted at supporting community members experiencing vulnerability, and programs and events that celebrate and are inclusive of our diverse cultural communities.

Highlights of the Plan include

Major upgrades to sporting and community facilities, investing in delivering new affordable housing projects by partnering with housing organisations, and ensuring our services meet the needs of our rapidly growing community.

The Plan identifies priorities that will deliver

A transport network offering real travel choices, an improved framework for managing our limited parking supply, and streets that are designed for healthy people, not cars.

Highlights of the Plan include

Developing an Integrated Transport Strategy, investing in improving pedestrian safety and the continuity of our bike routes, and advocacy to address gaps in the public transport network, including a high frequency tram connection to Fishermans Bend.

The Plan identifies priorities that will deliver

Developing a Sustainable City Community Action Plan and a new Sustainability Strategy Beyond 2020. Investing in stormwater harvesting, solar energy, waste service innovation and the EcoCentre.

Highlights of the Plan include

Developing a Sustainable City Community Action Plan and a new Sustainability Strategy Beyond 2020. Investing in stormwater harvesting, solar energy, waste service innovation and the EcoCentre.

The Plan identifies priorities that will deliver

Liveability as the City grows and urban density increases, by ensuring high quality buildings contribute to safe, lively streets, and enhanced public spaces to cater for increased demand.

Protection of the City’s valued heritage places and 10-minute neighbourhoods to reinforce the sense of place.

Highlights of the Plan include

Reviewing planning policy to effectively manage urban growth, strengthening heritage controls and developing a new Public Spaces Strategy. Working in partnership with the Victorian Government to develop a robust planning framework and precinct plans for Fishermans Bend to ensure a world class renewal area.

The Plan identifies priorities that will deliver

City where arts, culture and creative expression is part of everyday life, our creative industries cluster has grown, and thriving retail centres are a focal point for local communities and businesses.

Highlights of the Plan include

Investing in retail precincts to improve accessibility and facilitating renewal. Developing a Creative and Prosperous City Strategy and transforming our libraries as creative and learning spaces.
We are caring.
Direction 1

We embrace difference, and people belong
What we want to see by 2027

1.1 A safe and active community with strong social connections
1.2 An increase in affordable housing
1.3 Access to services that support the health and wellbeing of our growing community
1.4 Community diversity is valued and celebrated

We embrace difference, and people belong

A safe and active community with strong social connections

We will work towards this outcome by:

A. Providing access to flexible, multipurpose facilities that support participation in community life through sport, recreation and lifelong learning.

B. Supporting programs that create social connections and strengthen community networks.

C. Building community capacity by harnessing the knowledge, expertise and spirit within our community.

Our priorities for the next four years:

- Plan and deliver a long-term program of sports field and pavilion upgrades to enhance capacity and broaden community participation in sport and recreation including JL Murphy Reserve, RF Julier Reserve, Lagoon Reserve, North Port Oval and Peanut Farm Reserve.
- Redevelop the South Melbourne Life Saving Club to provide contemporary clubhouse facilities and public amenities.
- Invest in a long-term program of community facility upgrades to ensure they are fit for purpose and meet current and future community needs.
- Establish outdoor gyms and fitness stations in open space and continue to upgrade recreation reserves and skate parks to facilitate an active, healthy community.

- Deliver community strengthening programs that harness community knowledge and expertise to support leadership, learning and volunteering, improve safety and foster positive social and health outcomes.
- Implement a whole of Council and community approach to preventing and responding to family violence.
- Collaborate with partners to understand and minimise the harms associated with alcohol and drug use.
- Provide funding to groups and organisations that support local networks, encourage community participation and support access and inclusion.
1.2 An increase in affordable housing

We will work towards this outcome by:

A. Pursuing new, sustainable funding streams to significantly increase the supply of social housing.

B. Establishing and facilitating partnerships to support diverse and innovative new affordable housing projects, and reduce the risk of homelessness.

Our priorities for the next four years:

• Implement In Our Backyard - Growing Affordable Housing in Port Phillip 2015-2025 to increase the supply and diversity of affordable housing aligned to priority local needs - low income families, older people, key workers, and single people at greatest risk of homelessness.

• Review and implement the Homelessness Action Strategy 2015-2020, and provide support for people experiencing homelessness to access suitable housing.

• Use Council property assets (land and air space contributions) and cash contributions to facilitate delivery of new community housing units by local housing organisations, including progressing development of 46-58 Marlborough Street, Balaclava.

• Work with the Victorian Government and local community housing organisations to optimise benefits from existing social housing sites, through increased yield, quality and housing type, aligned to local needs.

• Facilitate partnerships between the community housing, private and philanthropic sectors that fund and deliver new housing projects, including in Fishermans Bend.
We embrace difference, and people belong

Access to services that support the health and wellbeing of our growing community

We will work towards this outcome by:

A. Facilitating access to relevant services that cater for all ages and life stages.
B. Supporting co-located and integrated services, and shared use arrangements, to improve access for all.
C. Exploring partnerships and innovative ways of delivering services.
D. Pursuing universal accessibility for people with disabilities, children and older people.

Our priorities for the next four years:

- Deliver new community spaces as part of the integrated Ferrars Street Education and Community Precinct at Fishermans Bend—completed in 2018.
- Implement outcomes from reviewing Council’s role in aged care and disability support services, in the context of national sector reforms and with the aim of facilitating continued access to relevant, quality services.
- Review and implement agreed changes to Children’s services on Council’s future role in early childhood education and care.
- Explore new models of providing services and advocate to ensure the right mix and level of services to improve access and health equity for our communities.
- Implement improvements to maternal and child health services and family support services that respond to growing and changing demands.
- Investigate the feasibility of a dedicated youth space, including through potential partnership arrangements.
- Collaborate with partners and service providers to undertake neighbourhood planning and delivery of community infrastructure, services, programs and outreach that promote health and social inclusion and are aligned to community needs.
- Review and implement the City of Port Phillip Access Plan to support universal access, and implement accessibility improvements to council buildings, streets and public spaces, including the beach.
- Provide funding to community organisations and service providers to ensure access to relevant services and programs.
Community diversity is valued and celebrated

We will work towards this outcome by:

A. Supporting programs and events that engage, honour and are inclusive of our diverse social and cultural communities.

B. Targeting services and building community capacity to support vulnerable members of our community, emphasising prevention and early intervention.

C. Protecting and promoting Aboriginal culture and heritage, and continuing reconciliation with our Indigenous community.

Our priorities for the next four years:

• Establish the Pride Centre in St Kilda.

• Work with the Port Phillip Health and Wellbeing Alliance, Youth Advisory Committee, Older Persons Consultative Committee, Access Network, Multicultural Forum and Multifaith Network to develop policy, services and infrastructure that best meet diverse community needs.

• Continue delivery of programs and events that celebrate our diverse communities, including multicultural and multifaith events, senior events, and the Pride March.

• Review the Social Justice Charter in the broader context of a commitment to corporate responsibility.

• Retain Council’s Access and Ageing Department Rainbow Tick accreditation to ensure LGBTIQ inclusive service delivery - completed in 2017.

• Implement our second Reconciliation Action Plan 2017-2019, including the Aboriginal and Torres Strait Islander employment policy, and update the Aboriginal and Torres Strait Islander Arts Plan.
We embrace difference, and people belong

This direction is supported by

Advocacy priorities

Advocate to the Victorian Government:
- for an affordable housing target in Fishermans Bend
- to introduce ‘Inclusionary Zoning’ to deliver affordable and social housing through private sector development
- for improved public and social housing, and better standards for boarding and rooming houses, to improve safety, amenity and privacy of residents
- to improve access to education and additional schools in Port Phillip.
Advocate to the Federal Government for funded support and tax reform that addresses housing affordability.

Engagement and partnership priorities

- Ongoing collaboration with partners to the Health and Wellbeing Alliance.
- Suai Covalima Timor Leste Partnership.
- Work in partnership with Victoria Police, the community and local service agencies to improve community safety.
- Work with new and current partners to monitor and respond to health and social change through research and evidence-based policy.
- Work with academic partners to undertake place-based evaluations of health outcomes.
- Work with inner Melbourne councils to collaborate on regional sport and recreational planning and delivery.

---

* This measure is required under the Local Government Performance Reporting Framework.

8 The greater than 100 per cent result is due to a greater number of visits than birth notifications, because some babies born late in the financial year received their first visit in the next financial year.

9 Result is from November 2016.

* 2016/17 data sourced from VISTA 2012-2016.
We are connected and it’s easy to move around

An integrated transport network that connects people and places

We will work towards this outcome by:

A. Improving the connectivity, safety and amenity of walking and bike riding networks.

B. Advocating for investment in public transport to address network gaps, increase capacity, and improve connections between modes.

C. Influencing truck movements to facilitate business and manage local amenity impacts.

Our priorities for the next four years:

- Develop and deliver an Integrated Transport Strategy, including network plans for all modes and intermodal connections - the strategy was endorsed in 2018 and delivery has commenced.

- Implement walking projects that create safe, high amenity walking routes and reduce barriers to people walking across arterial roads.

- Improve the attractiveness of bike riding as part of delivering Council’s bike network.

- Deliver the Beach Street separated queuing lane to reduce traffic delays associated with cruise ship arrivals - completed in 2017.

- Plan for and deliver Kerferd Road safety and streetscape improvements to enhance walking and bike riding (subject to State funding).

- Work with Public Transport Victoria and Yarra Trams to deliver a pipeline of tram projects that will improve place and movement. (Carlisle Street tram upgrade - completed in 2018)

- Deliver program of renewals and improvements to laneways, roads, footpaths and street signage.
2.2 Demand for parking and car travel is moderated as our City grows.

We will work towards this outcome by:

A. Engaging with the community using a neighbourhood based approach, to encourage active and sustainable travel.

B. Reducing reliance on cars, by directing housing and employment growth to areas with the best access to public transport and shops.

C. Managing parking demand through technology, policy and pricing.

Our priorities for the next four years:

- Develop plan to manage parking as part of the Integrated Transport Strategy - completed in 2018.
- Develop new policies for paid parking, on-street permits and parking provision rates for new development.
- Investigate Council’s car parks for future development opportunities that deliver increased community benefit.
- Implement clever parking initiatives that help manage parking supply and turnover, and improve customer experience.
- Expand the on-street network of car share vehicles, and encourage provision in new developments.
- Integrate land use and transport planning through a review of the Municipal Strategic Statement.
We are connected and it’s easy to move around

2.3 Our streets and places are designed for people.

We will work towards this outcome by:

A. Prioritising walking, bike riding and public transport when designing roads and allocating resources.

Our priorities for the next four years:

- Implement blackspot safety improvements at high collision locations (subject to external funding).
- Work with partners on the St Kilda Junction safety upgrade and St Kilda Road safety improvement study to facilitate walking, bike riding and use of public transport.
- Complete the streetscape and intersection upgrade of Wellington Street to improve safety and amenity.
- Improve local community travel choices, especially by schools, by investing in infrastructure and behaviour change programs.
- Progressively review and upgrade disabled parking spaces in commercial areas to meet updated Australian Standards.
- Review Council’s design and technical standards for streets and public spaces.
This direction is supported by

### Advocacy priorities
Advocate to the Victorian Government:
- to maximise community benefit from Metro Tunnel public transport and precinct works including the Park Street tram link and all associated tram stop upgrades.
- to maximise community benefit from Public Transport Victoria’s tram stop upgrade program.
- for the Shrine to Bay Boulevard, landscape and bike network connection.
- to expedite funding and delivery of the St Kilda Road safety improvement project to provide for convenient, safe and continuous walking and bike riding.
- for early implementation of strategic bicycle corridors (continuous buffered and protected bike lanes), light rail and smart bus routes to and around Fishermans Bend.
- for Balaclava Walk (Nightingale Street to Ripponlea Station).

Advocate to VicRoads to confine truck travel to select routes through the City.

### Engagement and partnership priorities
- Lead collaboration with inner Melbourne councils to secure funding for the inner metro strategic cycling corridor network.
- Partner with inner Melbourne councils to advocate for a consistent wayfinding strategy for pedestrians and public transport users.

### Strategies, policy and plans *

* Strategies, plans and policies are mapped to the direction they primarily contribute to. Some strategies, plans and policies will contribute to multiple directions.
We are connected and it’s easy to move around

14 No interim targets have been set. This will be set by 31 March 2020, when the Victorian Government release its interim targets for 2025 and 2030.

* Measure is required under the Local Government Performance Reporting Framework.
3.1 A greener, cooler and more liveable City

We will work towards this outcome by:

A. Increasing canopy cover and diversity of tree species across our streets and open spaces.

B. Facilitating the greening of our built environment, through green roofs, walls and facades.

Our priorities for the next four years:

- Promote green buildings by applying environmentally sustainable design planning policy and guidelines.
- Develop a heat management plan to help cool the City and reduce the impact on health.
- Implement and review progress on the Greening Port Phillip Plan - An Urban Forest Approach, including implementing the street tree planting program 2017-22 and ongoing investment in park trees and streetscape improvements, including in Fishermans Bend.
- Investigate opportunities to protect vegetation and increase canopy cover on private property.
- Complete an Ecological Biodiversity Study, in partnership with the EcoCentre and local experts.
We have smart solutions for a sustainable future

A City with lower carbon emissions

We will work towards this outcome by:

A Reducing Council energy consumption and greenhouse gas emissions.

B Facilitating a reduction in community greenhouse gas emissions by partnering with the community and private sector.

C Promoting sustainable and low energy precinct infrastructure, including in Fishermans Bend.

Our priorities for the next four years:

• Develop a sustainability strategy for beyond 2020, including considering United Nations sustainability goals and targets, and baselining municipal-wide greenhouse gas emissions - completed in 2018.

• Invest in renewable energy and energy efficiency measures in Council buildings and street lighting, and in the Melbourne Renewable Energy Project, a group purchasing model to drive investment in renewable energy.

• Embed sustainability into Council’s procurement, fleet and investment policies and practices, and investigate opportunities to install electric car charging stations.

• Implement guidelines that enable increased uptake of environmentally sustainable design features, including rooftop solar, in heritage areas.
3.3 **A City that is adapting to climate change**

We will work towards this outcome by:

A **Increasing community resilience to the impacts of climate change.**

B **Requiring development to adapt to and positively influence the local climate.**

C **Managing and reducing the impacts of flooding and sea level rise.**

Our priorities for the next four years:

- Deliver behaviour change and education programs through the Sustainable City Community Action Plan and support environmental education programs in schools.
- Develop tools to help the community understand and adapt to the impacts of climate change.
- Examine the effectiveness of establishing a Port Phillip energy foundation, or partnering with an existing foundation, to undertake advocacy, research, advisory and community engagement initiatives.
- Work with partners to develop a bay-wide coastal hazard assessment and advocate for a planning scheme tool to identify and manage coastal inundation.
- Contribute to the EcoCentre redevelopment and continue to invest in EcoCentre programs that support an environmentally aware community.
- Work with partners to develop a long-term action plan for the Elster Creek catchment to mitigate flooding.
- Develop and implement a framework to increase Council asset resilience to the impacts of climate change.
We have smart solutions for a sustainable future

3.4 A water sensitive City

We will work towards this outcome by:

A. Reducing potable water consumption by encouraging more efficient water use and establishing alternative water sources.

B. Improving the quality of water entering Port Phillip Bay and increasing ground permeability.

Our priorities for the next four years:

- Undertake integrated water management planning, including partnering with Melbourne Water and others to review and implement relevant plans.
- Plan and deliver water sensitive urban design interventions to reduce contaminants in water entering Port Phillip Bay.
- Investigate and implement (subject to viability) stormwater harvesting and flood mitigation works at key locations.
- Implement irrigation upgrades at key sports fields and parks to optimise water use.
- Increase the permeability of ground surfaces across public streets and spaces, and work with the community to achieve greater permeability on private property.
- Develop a Stormwater Management Policy and Guidelines to require onsite stormwater detention for new developments.

3.5 A sustained reduction in waste.

We will work towards this outcome by:

A. Reducing waste and maximising recycling and diversion from landfill through service innovation and facilitating community action.

B. Managing waste collection to improve amenity and achieve cleaner streets, public spaces and foreshore areas.

Our priorities for the next four years:

- Develop and implement a new municipal Waste and Resource Recovery Strategy including an implementation plan to divert organic waste from landfill. The strategy was endorsed in 2018 and delivery has commenced.
- Work with the Metropolitan Waste and Resource Recovery Group to establish an inner metropolitan sustainability hub.
- Pursue waste innovations in Fishermans Bend.
- Update waste management guidelines for apartment developments and deliver focused recycling program to increase waste diversion from landfill.
This direction is supported by

### Advocacy priorities

- Advocate for and promote reduced use of balloons, plastic bags and single use plastics.
- Advocate to the Victorian Government for sustainability targets in Fishermans Bend.
- Advocate for innovative sustainable infrastructure solutions for water reuse, energy and climate resilience, and partner to deliver advanced waste treatment and resource recovery.

### Engagement and partnership priorities

- Collaborate with the South East Councils Climate Change Alliance and the Council Alliance for Sustainable and Built Environment.
- Work with partners to improve catchment management.
- Collaborate with the Cooperative Research Centre for Water Sensitive Cities
- Work with the Association of Bayside Municipalities to coordinate, cooperate and advocate to ensure sustainable management and health of Port Phillip Bay.
- Work with inner Melbourne councils on an Urban Forest and Biodiversity Strategy for the inner region.
- Work with inner Melbourne councils on an innovative waste management strategy for the inner region.
- Work with Parks Victoria and City of Melbourne to determine the viability of stormwater harvesting at Albert Park Lake.

### Strategies, policy and plans *

- Act and Adapt - Sustainable Environment Strategy 2018-28
- Climate Response Plan 2019 (in development)
- Foreshore and Hinterland Vegetation Management Plan 2015
- Greening Port Phillip, An Urban Forest Approach 2010
- Sustainable Design Strategy 2013
- Water Sensitive City Plan 2019 (in development)

* Strategies, plans and policies are mapped to the direction they primarily contribute to. Some strategies, plans and policies will contribute to multiple directions.

* Measure is required under the Local Government Performance Reporting Framework.
We are growing and keeping our character

4.1 Liveability in a high density City

We will work towards this outcome by:

A. Requiring well designed buildings that contribute to safe, lively, high amenity places.

B. Designing and activating well managed, safe and liveable public spaces for people to enjoy.

C. Extending, connecting and diversifying our open space network to cater for increased demand.

Our priorities for the next four years:

- Partner with the Victorian Government to ensure the Fishermans Bend Framework and precinct plans maximise outcomes for current and future Port Phillip residents, including employment, housing choice, quality public space and community facilities, and early delivery of fast, frequent public transport.

- Deliver open space and streetscape works in Fishermans Bend, particularly in the Montague Precinct and at the Ferrars Street Education and Community Precinct - Kirrip Park completed 2018.

- Work with the Victorian Government to effectively manage site (soil and groundwater) contamination and management of open space sites, including at Gasworks Arts Park.

- Review and update the Port Phillip Planning Scheme and Municipal Strategic Statement to ensure an effective framework of local policy and controls to manage growth and support healthy communities.

- Implement planning scheme amendments to strengthen design and development controls in areas undergoing significant change.

- Develop a new public space strategy.

- Deliver the Design and Development Awards, to showcase and promote design excellence in Port Phillip - completed in 2018.

- Invest in improving parks, playgrounds and street and public space lighting.

- Continue to improve community safety by evaluating CCTV, undertaking safety audits and implementing crime prevention measures such as environmental design.

- Continue to maintain a high standard of amenity, ensure compliance with planning requirements and local laws, and support public health and safety through service improvements and mobile technology.

- Review Council’s local law to manage and improve community amenity - completed in 2018.

- Review and monitor our emergency management guidelines and protocols to support statewide policy and good practice.

- Work with the Victorian Government to improve the safety of buildings in our municipality.

- Review (completed in 2017) and implement Council’s Domestic Animal Management Plan, which promotes animal welfare and responsible pet ownership.

- Increase investment in street cleaning, litter bins and equipment to improve amenity and responsiveness and investigate opportunities for further improvements to service delivery.

- Develop a Stormwater Asset Management Plan and continue to invest in drainage improvements.

- Implement Council’s Graffiti Management Plan, which provides direction for the removal and management of graffiti.
A City of diverse and distinctive neighbourhoods and places.

We will work towards this outcome by:

A. Planning for 10-minute walking neighbourhoods that give locals access to shops, community spaces and a strong sense of place.

B. Protecting heritage places that represent our historic, social, cultural and architectural identity.

C. Ensuring new development integrates with, respects and contributes to the unique heritage, character and beauty of our neighbourhoods.

D. Enhancing the environmental and recreational qualities of the foreshore.

Our priorities for the next four years:

- Effectively manage the St Kilda Marina including process for new lease and developing design guidelines through stakeholder and community engagement.
- Advocate for and partner to develop a vision and plan for St Kilda Junction.
- Develop an urban design framework for the St Kilda Road North - Anzac Station precinct and surrounds.
- Develop a strategic plan for the St Kilda precinct, including a strategy to revitalise Fitzroy Street.
- Implement a program to strengthen heritage controls including assessing sites of cultural and social significance and implementing the review of Heritage Overlay 6 (East St Kilda) through the planning scheme.
- Review the Housing Strategy to ensure new residential development is well located and respects the character and heritage of established neighbourhoods.
- Review the Heritage Policy in the Planning Scheme to improve guidance on retention and adaptive reuse of the City's heritage fabric.
- Reflect and interpret the City's history by installing plaques, memorials and monuments.
- Upgrade the foreshore including vegetation projects and maritime infrastructure renewals.
We are growing and keeping our character

15 Includes overnight stays, day trips, local visitor and people attending festivals
We thrive by harnessing creativity

A City of dynamic and distinctive retail precincts

We will work towards this outcome by:

A. Enhancing the prosperity of our shopping precincts and the South Melbourne Market by working with traders and land owners by adopting a place-based approach.

B. Collaborating to ensure our entertainment and local economies thrive, while ensuring safe, enjoyable places for everyone.

Our priorities for the next four years:

- Trial an approach that brings together residents, property owners, businesses and place users to agree a future vision and new place identity for our shopping precincts.
- Leverage opportunities to improve the Carlisle Street retail precinct, including tram stop upgrade (completed in 2018), Marlborough Street redevelopment and planning for redevelopment of the supermarket precinct to enhance the retail offer and surrounding street spaces.
- Review footpath trading policies to promote street activity and accessibility - competed 2019.
- Continue to collect special rates to support traders and fund the promotion, marketing and development of retail precincts.
- Develop a strategic vision and business case for the South Melbourne Market to shape the future direction and investment, and plan for and deliver renewal works.
- Work with inner Melbourne councils to develop approaches to better manage licenced premises and entertainment precincts.
- Develop a process to require developers to work with Council to commission art on hoardings.
5.2 A prosperous City that connects and grows business.

We will work towards this outcome by:

A. Fostering the knowledge economy and creative industry clusters.

B. Facilitating innovation and investment that enables businesses to start-up, connect and grow.

C. Partnering to promote Port Phillip as a visitor destination in a way that respects local amenity.

Our priorities for the next four years:

• Develop a Creative and Prosperous City Strategy that features all elements of our City’s economy - **completed in 2018**.

• Map the innovation and creative ecosystem of the City to understand and prioritise options to address issues of affordability and availability of space.

• Work with inner city councils and Victorian Government to protect, promote and grow the local creative and innovation economy.

• Develop and implement a marketing plan to promote the local environment, attractions and events to locals and visitors.

• Connect local industry associations, including visitor and volunteer groups like the Port Melbourne Waterfront Welcomers with the broader visitor economy.
We thrive by harnessing creativity

A City where arts, culture and creative expression are part of everyday life

We will work towards this outcome by:

A. Promoting and celebrating community creativity and participation in art, music, culture, heritage and festivals.
B. Activating our public spaces and streets through local cultural events and urban art.
C. Transforming our library services and spaces to support inclusive, creative opportunities and learning outcomes.

Our priorities for the next four years:

- Support the community to plan and produce festivals that celebrate local culture and talent.
- Implement a new, competitive multi-year grant program for arts and cultural organisations.
- Optimise our investment in our key arts and culture venues, including engaging with operators of Gasworks Arts Park and Linden Gallery to ensure we foster access, participation, local arts development and Port Phillip as a cultural destination.
- Implement the Events Strategy through event attraction and communications.
- Deliver improvements to library branches and the library collection, including preparing a Library Action Plan and planning for redeveloping the St Kilda Library.
- Protect and develop the Port Phillip City collection by acquiring, preserving and exhibiting artworks.
- Develop and implement a Live Music Action Plan to better support, facilitate and grow a dynamic live music scene.

* Measure is required under the Local Government Performance Reporting Framework.
18 As measured against the VAGO Financial Sustainability Risk Framework.
Our commitment to you

A financially sustainable, high performing, well-governed organisation that puts the community first

We will work towards this outcome by:

A. Improving customer experience and technology and being more innovative.
B. Improving community engagement, advocacy, transparency and governance.
C. Inspiring leadership, a capable workforce and culture of high performance and safety.
D. Ensuring sustainable financial and asset management and effective project delivery.

Our priorities for the next four years:

- Implement our Customer Experience Improvement Plan and Information and Communications Technology Strategy to streamline processes, improve systems, improve workforce mobility and transition to digital service delivery.
- Be the partner of choice for other councils and organisations to work with, to enable improved customer experience, productivity and innovation.
- Be catalysts for greater community action, including by opening up more of our data to the public.
- Develop and implement a Community Engagement Policy.
- Develop and implement an advocacy strategy to advance Council and community priorities - completed 2018.
- Improve our enterprise planning, performance, risk and compliance frameworks.
- Deliver the Council Election 2020.
- Improve record-keeping, including digitising historical records.
- Implement the outcomes from the review of the Local Government Act.
- Upgrade the organisation’s financial and asset management systems, processes and practices.
- Invest in improving the condition, functionality, capacity and sustainability of Council assets.
- Continue to build organisational capability and maturity in project management.
- Review our rating strategy, property policy and investment policy.
- Review the organisation’s People and Culture Strategy and develop a workforce plan.
- Improve the organisation’s health and safety practices.
- Embed environmental and social responsibility into the way we work including monitoring measures of gender equity.
This direction is supported by

<table>
<thead>
<tr>
<th>Advocacy priorities</th>
<th>• Advocate to the Victorian Government for access to Fishermans Bend development contributions to support delivery of community infrastructure.</th>
</tr>
</thead>
</table>
| Engagement and partnership priorities | • Work with the Municipal Association of Victoria (MAV) to advocate for a cost-shift index to be applied to the Victorian Government cap on rates increases.  
• Work with other councils, the MAV, and organisations on opportunities to drive efficiency and service improvements through collaborative procurement, process and system improvement, and where relevant, service delivery. |
| Strategies, policy and plans * | • Asset management plans  
• Asset Management Policy 2017 and Strategy (under development)  
• Civic Recognition and Support Strategy  
• Councillor Code of Conduct (including Councillor Support and Expense Reimbursement Policy 2016)  
• Employee Code of Conduct  
• Organisational Strategy 2017-21  
• Property Policy 2009 (under review)  
• Risk Management Policy 2017 |

* Strategies, plans and policies are mapped to the direction they primarily contribute to. Some strategies, plans and policies will contribute to multiple directions.
## Key projects that will be underway by 2027

</tbody>
</table>

Unless otherwise stated, market rental is determined by valuation report.

** Market rent is Net Annual Value - a rating calculation for market rent undertaken every two years for rating purposes and used where a valuation report is not available.

* This will increase by the March quarter CPI - currently not known.

# This is the current rental. Rental undergoing market review process. 21 The Stokehouse lease allows for initial discounts related to the fire reinstatement and business reestablishment, reflecting direct investment by the Stokehouse operators. 22 Percentage of turnover above threshold amount is currently under review.

OUR FINANCIAL STRATEGY

Our financial strategy provides clear direction on the allocation, management and use of financial resources. It aims to ensure Council stays financially sustainable while maintaining assets and services, responding to growth, and delivering on our priorities.

The financial strategy is embedded in our 10-year Financial Plan and throughout this Plan. It sets the parameters within which Council agrees to operate to maintain acceptable financial outcomes over the short, medium and long term.

The 10-year Financial Plan is in Section 3.

Addressing our financial challenges

Over the next 10 years, we will face many challenges that require strong financial leadership and creative solutions to overcome them. Key among these challenges will be rate capping, which impacts our ability to fully control 57 per cent of our key revenue source. Without action, the Financial Plan forecasts a cumulative $75 million funding gap due to rate capping.

The impact of population growth, which is projected to increase by over 50 per cent by 2041 largely driven by Fishermans Bend and some other pockets in our City, will drive an increase in urban density. Our road network for cars, which is at capacity and cannot be increased, will see increased congestion as our population grows. We will invest over $34 million over the 10-year period to implement the Integrated Transport Strategy.

While our population is growing, it is also changing. We are fast becoming a 24-hour city. Around one in every 12 workers works from home. We can expect increasing demand for Council services to be delivered online, and greater engagement through social media and other digital means. We will need to respond to this demand and consider the opportunities that technological advances offer for new methods of service delivery that have the potential to offer efficiencies and improved community outcomes. The digital shift which sees council investing $23 million over the 10-year period will reshape how we deliver services and engage our community in decision making.

The City of Port Phillip has always been a bold, liveable, caring and beautiful place. Our history and heritage remind us we have long been Melbourne’s creative playground. Arts, creativity and innovation are in our DNA. Our diversity and inclusiveness is our future. However, we face both challenges and opportunities from urban development and growth, which means we need to be more considered and proactive to ensure the social, cultural and economic wellbeing of our community, and to think differently about how best to support accessibility and diversity. Some of the important challenges we face include those of densifications which can create tension between competing land uses, and we see this acutely when managing the local impacts of festivals, events and live music. Gentrification, escalating land values and the rising cost of rent also present a challenge for creative practitioners, entrepreneurs and small businesses. The changing retail environment, rise of the sharing economy and flexible employment models are driving an evolution of our places and the experiences people have in our City.

We propose to harness the creativity of the City of Port Phillip and will seek to achieve this by creating a City of dynamic and distinctive places and precincts; building a prosperous City that connects and grows business as well as bringing arts, culture and creative expression to everyday life and contributing to Melbourne’s liveability.

Our City needs to be environmentally sustainable and to minimise our waste output. We are already experiencing the impacts of climate change, and we can expect increased flooding of coastal properties and public amenities, storm damage to infrastructure, beach erosion, decreased water quality and security of water supply, reduced summer outdoor activities and hotter urban spaces. Changing environmental conditions may challenge some members of our community to stay healthy and safe, and this will have an impact on Council services. We will invest over $43 million to ensure a sustainable future for the City by creating a City that is greener, cooler and more liveable; a City that is adapting and resilient to climate change; a city that is water sensitive with a sustained reduction in waste.

We closely monitor the affordability of services, and recognise ongoing community concerns about the financial impost of rates and the cost of other essential services. As such, we are not planning to apply for a rate increase above the rates cap over the life of the Financial Plan.

We plan to balance the budget, manage the impact of rate capping and transform our City by adjusting the following strategic levers.
Delivering efficiency and cost savings

The community’s expectations for better value service delivery are of primary concern to Council. We have identified permanent operational savings of $2.4 million in Budget 2019/20. This adds to the $11.0 million of savings delivered in the last five budgets.

Over the period of the Financial Plan, we will target efficiency savings equivalent to one per cent ($1.9 million) of operating expenditure (less depreciation) per annum. This is expected to reduce our cost base by a cumulative $75 million over the 10-year period.

Key initiatives to deliver these savings include a service review program to better define service requirements and target support, a commitment to better practice procurement and asset management, the sale of surplus properties, and investment in business process and system improvement.

We are investing in replacing our outdated technology to ensure our services remain relevant, convenient and responsive to our ratepayers as we move into the digital age while maintaining our face-to-face service delivery. We expect to see a more efficient organisation which addresses the issues associated with ageing legacy systems (limited integration, system inflexibility to cater for fast-changing business needs, data quality and duplication issues). The efficiency and financial benefits will outweigh the initial investment, which have been embedded into the 10-year period.

Appropriate use of borrowings and reserves

We will consider borrowings for property acquisitions, large capital works or operating projects that provide intergenerational community benefit, and initiatives that deliver sufficient revenue streams to service the debt. Borrowings will not be used to fund ongoing operations.

The Financial Plan includes paying off our existing $7.5 million loan in 2021/22 from a draw down on our cash reserve. We expect the financial benefits (net interest savings) of $0.15 million per annum outweighs the reduced cash for contingency and liquidity. Borrowing will be reviewed annually as part of the budget process and as needed, as consideration for large significant projects.

We maintain general reserves at levels sufficient to ensure operational liquidity. Reserves may be built up over time to partly fund large capital works or appropriate operating projects, where this is considered more efficient than the use of debt.

The Financial Plan includes using general reserves as an internal source of borrowing for projects that will benefit future generations such as the Ferrars Street Education and Community Precinct works ($9.8 million). The plan allocates five per cent of Fishermans Bend derived rates to the Municipal Growth Fund to be invested in Fishermans Bend. We will continue to use open space contributions for investment in parks and foreshore open space assets.

The Financial Plan also includes a progressive build-up of the Palais Theatre Reserve funded from significantly increased rental returns, following the recent successful leasing process to ensure funds are available to maintain the theatre over the long term.

Our investment in a Sustainability Hub that will replace our current transfer station and depot, and may include a new Advanced Waste Treatment facility, will be partly funded from the Strategic Property Reserve (built up from sale of surplus assets) and general reserves to be replenished over the life of the asset. It is expected the financial benefit of using general reserves rather than financing it from borrowing will save Council $5.1 million in interest costs.

Careful management and prioritisation of expenditure

We undertake a rigorous and robust budget setting process each year, including a line by line review of operating budgets and proposed projects to ensure alignment with strategic priorities and best value. Performance is monitored closely throughout the year, with forecasts updated monthly.

In addition to the disciplined budget setting and expenditure monitoring, the strategy in the Financial Plan provides $5.2 million per annum for operating projects including cloud-based technology, which will be recognised as operating.

Our focus on improved asset management sees investment prioritised on assets most in need of intervention rather than those in relatively good condition. This translates to an increase in spending on buildings, drainage and technology over the 10-year period of the Plan, partially offset by reducing road and footpath renewal budgets.
Our financial strategy

Setting fair and appropriate user charges

The annual budget process includes a thorough review of user charges to ensure they remain affordable, fair, and appropriate. We believe that those who directly benefit from and/or cause expenditure should make an appropriate contribution to the service balanced by the capacity of people to pay.

The financial plan links increases in Council user charges to inflation plus 0.25 percentage points from 2019/20. This is forecast to contribute a cumulative $1.7 million of additional income to Council and lowers our dependency on rates revenue. The application and impact of this policy setting will be reviewed annually to ensure affordability and fairness.

Rates assistance

We recognise the impact municipal rates and other charges have on the financially disadvantaged groups of the community. In addition to our commitment to keeping rates affordable, we offer assistance packages:

• A pensioner rebate that will increase by three per cent to $170 in 2019/20. The City of Port Phillip is one of very few councils that offer this scheme.

• An option for self-funded retirees to defer their rates indefinitely at half the official penalty interest rate set by the Victorian Government (five per cent for the 2018/19 financial year; 2019/20 financial year has not been released).

• Providing a 50 per cent waiver of the general rate for housing accommodation that provides reduced rentals for elderly persons of limited means.

• Support for residents and ratepayers experiencing hardship, through rate deferments and payment arrangements.

Financial risks

The Financial Plan achieves financial sustainability over the next 10 years. Beyond this period, sustainability will be tested particularly if other financial risks materialise. The Budget 2019/20 cash surplus of $0.91 million is greater than our long term target of $0.50 million, as this is needed to cover for the following enterprise risks:

• The Financial Plan assumes rate capping based on inflation. Since its introduction, the Minister for Local Government has prescribed rate increases based on inflation, which has been lower than Essential Services Commission’s (ESC) recommendation. Every 0.1 per cent lower than the ESC methodology equates to a $0.13 million reduction per annum in revenue.

• A more subdued property development market may result in rates revenue growing at a lower rate than the 1.3 per cent per annum Financial Plan assumption. Every 0.1 per cent reduction in growth equates to a $0.13 million reduction in revenue.

• Parking revenue, which is our second largest revenue source, is historically volatile and can be impacted by the macroeconomic environment. A 1.0 per cent reduction in revenue from parking fees and fines equates to a $0.38 million per annum reduction in revenue.

• There may be a large funding gap between the infrastructure desired in Fishermans Bend and what is able to be funded. A failure to appropriately budget for the costs of running and looking after new assets in Fishermans Bend is also a risk.

• Rates assistance

• Recent changes to the recycling sector due to policy changes imposed by China will have a permanent negative impact to local government.

• The possibility of a future unfunded defined benefits superannuation call.

• Future reductions in funding from other levels of government or increases in cost shifting.

• A major, unexpected, asset renewal / upgrade challenge.

• Enterprise Bargaining Agreement is underway and the results may have a negative financial impact to the Financial Plan.

Notwithstanding these risks, our sound financial position with low levels of borrowing and healthy reserves balance enable us to respond to these financial risks in the 10-year period if they arise. If necessary, we can also apply to the ESC for an above rates cap increase.
Monitoring our financial sustainability

We use the Victorian Auditor General’s Office (VAGO) financial sustainability indicators to monitor our financial sustainability. Our financial strategy is designed to ensure an overall low risk rating over the period of the Plan, unless we can demonstrate it is prudent not to (for example, one-off abnormal transactions that do not have an enduring impact).

We are forecasting that we will achieve an overall risk rating of low throughout the 10-year period, as shown in the table below.

FINANCIAL OVERVIEW

Operating result

Achieving an operating surplus is a key component of our financial strategy. It provides capacity to maintain and renew our $3.2 billion portfolio of community assets, meet debt repayment obligations, manage the impact of financial risks materialising, and invest in transformative strategies.

For the financial years 2018-2021, operating loss of $5.07 million, operating surplus of $8.5 million, operating loss of $5.7 million and operating surplus of $5.2 million respectively are limited by the $22 million investment in the Customer Experience Program.

The technology shift to cloud-based managed services means a significant amount of expenditure budgeted for technology will be reclassified as operating expenditure rather than capital investment.
Underlying result

The adjusted underlying result excludes capital related revenue (grants and open space contributions). It assesses Council’s ability to generate sufficient funds for asset renewals.

The 2017/18 underlying deficit was due to one-off expenditure items totalling $11 million including Pride Centre contribution and relinquishing Committee of Management of Crown land property.

For the financial years 2018-21, underlying deficits of $5.9 million, $14.3 million and $6.5 million respectively are mainly attributed to the $22 million investment in the Customer Experience Program. The technology shift to cloud-based managed services means a significant amount of expenditure budgeted for technology will be reclassified as operating expenditure rather than capital investment.

Rates percentage increase

The Budget 2019/20, which funds a $44.7 million capital program and maintains existing service levels, includes a 2.50 per cent rate increase, consistent with the Victorian Government cap. This has been achieved through a continued strong focus on prudent financial management, careful prioritisation, and commitment to productivity and efficiency ($2.4 million in 2019/20 in addition to $11 million over the previous five budgets). Future rates increases are based on forward projections of inflation, consistent with past decisions made by the Minister of Local Government for setting the rates cap.
Financial overview

Operating expenditure

Budget 2019/20 operating expenditure totals $230.1 million, which includes $11.2 million for the Customer Experience Program ($22 million over the financial years 2018/19 to 2020/21). We expect productivity and efficiency savings from this program equivalent to $40 million over the 10-year period.

The small but steady growth in operating expenditure in future years is largely driven by inflation (around 2 to 2.5 per cent per annum), service demand increases associated with population growth (around 1.3 per cent per annum), and the operating expenditure impact of new and improved assets (for example depreciation increase of 3.8 per cent per annum). This is partially offset by our commitment to efficiency and cost savings (1.0 per cent per annum).

Infrastructure renewal gap

This graph shows the asset renewal and upgrade budget over the Financial Plan compared to depreciation. It assesses if Council’s spend on its asset base is keeping up with the rate of asset depletion.

The ratio for 2017/18 of 87 per cent relates to a number of works in progress for large and complex building projects such as Peanut Farm Reserve Pavilion and South Melbourne Community Centre. The funds were deferred to Budget 2018/19.

Over the period of the Financial Plan, we intend to stay above 100 per cent, which shows our commitment to not only maintaining, but also upgrading our existing assets.
Capital expenditure

Capital works expenditure in 2019/20 is expected to be $39.2 million, out of a total $44.7 million capital program. The $5.5 million gap represents the component of the capital program budget to be treated as operating expenditure, such as community engagement, feasibility studies and landscaping costs.

The lower than average capital expenditure in 2017/18 of $24.3 million relates to a number of works in progress for large and complex building projects such as Peanut Farm Reserve Pavilion and South Melbourne Community Centre. The funds were deferred to Budget 2018/19.

In addition, $5.5 million capital budget from savings and underspends were transferred to the Asset Renewal Fund for future capital works.

The large spike in the 2020/21 capital program includes $17.5 million investment for a proposed Sustainability Hub.

Over the period of the Financial Plan, we provide for appropriate levels of capital expenditure to ensure existing assets are maintained and improved, while investing in growth driven assets. Over the 10-year period, we plan for our total capital expenditure to be greater than 150 per cent of depreciation expenditure.
**Financial overview**

**Council staff**

Council employees are our most essential resource, enabling the delivery of a broad range of services. For Budget 2019/20, we are proposing a net decrease of seven full time equivalent employees (FTE) based on 21 new positions fully offset through the disestablishment of 24 existing FTE positions.

Over the life of the Financial Plan, we expect the growth in FTEs to increase by 0.8 per cent to service projected population growth. This is offset by our investment in technology (Customer Experience Program), which is expected to achieve productivity and efficiencies which will see the shift of back office roles redirected to service delivery / community facing roles.

---

**Full time equivalents (staff)**
