Message from the Mayor

[Content to follow]
Why we need this Plan

The Graffiti Management Plan 2019-2024 provides a clear framework and guidelines for the management of graffiti within the City of Port Phillip. The plan outlines Council’s approach to dealing with illegal graffiti as well as outlining opportunities to mitigate against future graffiti and how this aligns with Council’s wider strategies.

Outcomes

The City of Port Phillip’s Graffiti Management Plan aims to demonstrate:

- **Trusted service levels on graffiti removal and other associated graffiti mitigation services.**
- **Ease of access for services offered to our community including the provision of an efficient and trusted process to report and action the removal of graffiti in our city.**
- **Improvements in liveability for our community through the provision of equitable and accessible resources.**
- **Information and advice as to how Council will prioritise collaboration with partners and our community to keep our streets clean and welcoming to all.**
- **A key set of objectives as targets to be achieved within the period covered by the plan to ensure evaluation and measuring of success.**
## Terminology and Principles

The following section lists **terms and principles** which are commonly used in the context of graffiti and graffiti management.

### Graffiti

Graffiti is the writing or application of any unauthorised inscription, figure or mark on a surface. Such a mark may be painted, sprayed, etched, drawn, pasted, scratched or otherwise affixed.

<table>
<thead>
<tr>
<th><strong>Types of Graffiti</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Bomb</strong></td>
<td>The act of painting many surfaces in an area resulting in dense graffiti completed over a short period of time.</td>
</tr>
<tr>
<td><strong>Buff</strong></td>
<td>The act of removing or painting over graffiti.</td>
</tr>
<tr>
<td><strong>Capping</strong></td>
<td>To tag or paint over the top of another graffiti artist’s work obliterating the original piece.</td>
</tr>
<tr>
<td><strong>Etching</strong></td>
<td>The use of acid solutions to tag on glazed surfaces.</td>
</tr>
<tr>
<td><strong>Ghost</strong></td>
<td>Marks left after the removal of graffiti, often due to the porous or aged nature of the surface beneath.</td>
</tr>
<tr>
<td><strong>Graffer/tagger</strong></td>
<td>A practitioner of graffiti.</td>
</tr>
<tr>
<td><strong>Offensive/Obscene</strong></td>
<td>Graffiti classified as conveying a message which is either offensive or obscene in nature. Such graffiti will often be defamatory, racist or sexually explicit.</td>
</tr>
<tr>
<td><strong>Paste Up</strong></td>
<td>The application of drawings or stencils on paper to a wall using wallpaper paste.</td>
</tr>
<tr>
<td><strong>Piece</strong></td>
<td>Often large and complex graffiti incorporating multiple colours and effects. Such graffiti takes more time to complete.</td>
</tr>
<tr>
<td><strong>Political/Protest</strong></td>
<td>The communication of a political viewpoint which might challenge the legitimacy of the existing political landscape through visual means.</td>
</tr>
<tr>
<td><strong>Posters/stickers</strong></td>
<td>Pre-designed and applied either with glue or tape. Often used to advertise services and/ or events.</td>
</tr>
<tr>
<td><strong>Stencils</strong></td>
<td>Pre-designed and perforated cut outs which are then sprayed through to create an image.</td>
</tr>
<tr>
<td><strong>Tags</strong></td>
<td>A stylised signature that is simple and quick to apply. Usually in spray paint or marker pen this is often the most common type of graffiti.</td>
</tr>
<tr>
<td><strong>Throw Ups</strong></td>
<td>Easy to paint bubble shaped letters, often with a single colour infill. Designed for quick execution.</td>
</tr>
</tbody>
</table>
Street Art

Street art differs distinctly from illegal graffiti in that it’s installation has been authorised. Such legitimate street art can often replicate similar styles to more complex graffiti pieces, but the genre varies widely. Street art is often temporary, sometimes challenging, and designed to enhance and enliven public spaces. Council has street art guidelines, including information on any required permits, which can be viewed here: www.portphilip.vic.gov.au/street-art

Graffiti Hotspots

Graffiti hotspots are locations which experience ongoing and extreme levels of graffiti. This is often due to the strategic visibility of such sites and the perceived acclaim that taggers might receive from their peers in tagging such locations. Other hotspots are often the result of environmental factors such as: the ease of transport to and from the site, the lack of passive surveillance, limited lighting and large accessible walls.

Crime Prevention Through Design (CPTED)

This describes an approach to crime prevention which accounts for environmental factors and how users an environment might interact with the physical space. Design principles can be used to address inherent anti-social behaviours and criminal activity by altering and improving the space to reduce such activities. CPTED is widely accepted as being a best practise initiative.

Graffiti Mitigation

Several techniques are recognised as limiting the impact of ongoing graffiti. This includes interventions such as:

- The installation of street art murals at highly hit locations
- Greening programs to obscure walls and enhance the local environment
- Adapting design and surface choices on infrastructure to deter tagging activity
- Improvements in lighting including the use of motion activated sensor lighting
- Programs to increase community engagement with and ownership of a space

Precinct Management

This relates to the collaborative approach to addressing local issues in our city. Precincts are often locations which are key hubs for trade, transport and social interactions. In approaching such spaces collaboratively by involving: the community, traders, utility/ transport stakeholders and Council departments - a series of coordinated responses can be delivered with often improved results as opposed to more siloed activities.
Community Correctional Programs

Enforcement agencies such as the Department of Justice run programs whereby offenders complete court-imposed community service orders working in teams to clean up graffiti from identified locations. This restorative justice can both promote a safer, cleaner community and enhance work related skills. Council has and will continue to investigate the possibility of incorporating a community correctional offender program within the City of Port Phillip. At this time it has been determined that it would not be possible to replicate desired service levels offered by Council’s graffiti removal contractors, i.e. paint colour matching and liaising with private property owners. The viability of such a scheme will continue to be reviewed as the scope of graffiti removal shifts. For example, should removal from graffiti to utilities supplier and transport provider assets fall within future Council jurisdiction such recurrent activities would be better suited to the scheme.

Graffiti Legislation

The Graffiti Prevention Act 2007 (the “Act”) sets out a legislative framework within which Council and other key stakeholders can operate in relation to graffiti. The Act recognises graffiti as a crime and lists the penalties which are enforceable as a result of such a crime. Such offences include:

- Marking graffiti – A person must not mark graffiti on property if the graffiti is visible from a public place unless the person has first obtained the express consent of the owner, or an agent of the owner, of the property to do so.
- Possessing a prescribed graffiti implement – A person must not, without lawful excuse possess a prescribed graffiti implement on property of a transport company, or in an adjacent public place, or in a place where that person is trespassing.
- A person must not sell an aerosol paint container to a person under 18 years of age, unless they produce a letter from their employer stating that the goods are required for business purposes.

Under the Act Council is required to either request consent or provide notice to a property owner or occupier of its intention to remove graffiti from the property. If the property owner or occupier actively opts out of the offered service, Council cannot remove the graffiti.

The Act does not impose a duty on Council to remove graffiti from private property, rather this is set out by Council’s own set of guidelines and policy directives.

Enforcing Offences under the Act

While the Act empowers Council to provide a framework within which a graffiti removal service can be offered to our community - and within which Council Officers can enforce and enact our related Local Laws – it remains the responsibility of law enforcement agencies to seek out and prosecute offenders. Our community can support our local law enforcement agencies by following the below advice:

- Call 000 to report graffiti in progress
- If your property is marked by graffiti, report it to your local police station.
- If you have information on illegal graffiti offences, contact your local police station or call Crime Stoppers on 1800 333 000. You can provide information to Crime Stoppers anonymously.
Developing the Plan

Council currently spends $535,000 annually on graffiti removal, management and mitigation. Graffiti is an often emotive issue, with our community reporting to us differing and polarised opinions as to the impact graffiti has on amenity and cleanliness in their area. For some it represents the presence of underlying anti-social behaviours and has negative impacts on their perception of safety; for others it represents an important form of creative expression in the urban environment.

How we evidenced priorities

In determining Council’s policy guidelines we have drawn upon several avenues to review and evidence our priorities and strategic directions, these include:

- **Community Consultation** – through a series of engagement initiatives we have asked our community for their feedback on services currently offered and their priorities for such services in the future.
- **Examining Statistics** - we have also reviewed an extensive set of data collected on graffiti reported and removed by Council over the past three years.
- **Engaging and consulting with key partners, stakeholders and agencies on best practise principles and how we might work together collaboratively going forward.**

Examining Graffiti Statistics

**Volume**

Council received 2,302 requests to remove graffiti in 2018. This compared with 1,892 requests in 2017 and 1,323 requests in 2016.

This trend demonstrates that although graffiti remains and ongoing presence in terms of volume our community is reporting graffiti at a higher rate. This indicates that there is a reduced tolerance to graffiti in our city. Such a trend can also, in part, be explained by improvements in facilitating the reporting of graffiti quickly and easily online.
Asset Types

Council received 38% of all requests to remove graffiti from residential property in 2018. With 37% of all requests being received to remove graffiti from Council assets and 25% of all requests to remove graffiti being received from commercially owned property.

Throughout 2018 45% of graffiti reported to Council owned assets was to our network of public toilets, this makes up 17% of all graffiti reported in our city and is therefore by far the most frequently hit amenity group.

Council do not have jurisdiction to remove from several asset categories and for this reason such assets are not included in these figures. Assets that Council do not remove from include:

- Assets owned by utilities suppliers and transport providers
- Assets owned by State Government and other associated agencies

Suburbs

Council received 44% of all requests to remove graffiti from locations in St Kilda. The suburbs of Port Melbourne and South Melbourne also feature highly making up 15% and 13% of all requests respectively.

The greatest frequency of Council assets reported to have incurred graffiti throughout 2018 was noted in St Kilda, comprising 36% of all removal requests. The suburbs of Port Melbourne and Elwood also feature highly in this category making up 25% and 10% of all requests respectively.

The greatest frequency of Privately owned property reported to have incurred graffiti throughout 2018 was noted in St Kilda, comprising 50% of all removal requests. The suburbs of South Melbourne, Port Melbourne and Elwood also feature highly in this category making up 15%, 9% and 8% of all requests received respectively.

Precinct Locations

Data of the top streets and areas reporting graffiti reflected that hot spots are often centralised in and around precinct locations. Such spaces are often shopping strips and transport hubs. The three areas that demonstrated the greatest volume of graffiti activity throughout 2018 are represented in this map:
Listening to our community

Council engaged with our community through a series of structured consultation events. This included:

- An online Have Your Say consultation questionnaire – the results of this were used to steer the content of the draft plan
- The release of a draft plan online for consideration and feedback
- Face to face drop in sessions to discuss the draft plan
- Feedback from all of the above were used to identify community priorities and develop the content of the final Plan.

What our community says

Council asked our community for their thoughts and input on graffiti in our city, here are some examples of what they told us:

"Reduce encouragement of graffiti as acceptable"

"Graffiti impacts on how we feel, care and commit to our neighbourhood"

"Private property owners and renters should definitely be supported"

"Sooner removed the better"

"I think we should be able to remove all graffiti – why are we allowing some to stay?"

"Paint over the top with great art instead!"

"High traffic areas are more likely to affect how you feel and removing graffiti quickly removes incentive for graffiti artists to bother painting their tags".

"Being left too long can encourage copy cats"

"Council needs to work more closely with local police"

"Government departments like PTV and Vic Roads also need to be accountable"

"Racist or otherwise abusive graffiti should be treated as urgent"

"There is nothing worse than public toilets being intimidating place. Public places must be a welcoming area for everyone"

"Prioritising too many areas will increase the cost"

"The current program seems adequate if people know about it"

"Perhaps Council would offer a reporting service or arrange one with the local police"

"More money needs to be spent on more street artists and greening measures"

"Sometimes I think Street Art looks like graffiti"
We’ve heard what our community wants

A considered review of feedback from our community has identified the following priorities:

- To continue to offer a graffiti removal service and ensure that such a service is offered as rapidly as possible.
- To prioritise the removal of obscene and offensive graffiti; as well as prioritising the removal of graffiti from public amenities and precinct spaces.
- To increase the bandwidth of graffiti mitigation options offered including considered street art and greening programs.
- To ensure that all available services are widely communicated and accessible to our community.
- To work alongside law enforcement agencies and other key stakeholders on collaborative improvements on graffiti management issues.

We’ve talked with graffiti artists

To develop a rounded and achievable Plan we have discussed graffiti and street art with members of the graffiti subculture.

Whilst this group remains vehemently secretive and has a reputation for anti-establishment tendencies Council have aimed to foster dialogue with the subculture in order to better address illegitimate graffiti and tagging in our community. We have discussed mitigation strategies and aimed to better identify which of these works, why and how we can better steer our responses for better outcomes. This dialogue remains ongoing and findings have been used in developing the Plan and, going forward, will be used in shaping graffiti mitigation projects.

Consultation on best practice principles

Council continue to actively participate and engage in several working groups and forums dedicated to cross agency collaboration and the sharing of best practice principles. These include: Municipal Association of Victoria (MAV) Graffiti Working Group and Inner South Melbourne Mayoral Forum (ISMMF).

The development of this plan has also drawn upon work completed Interstate and Internationally, namely by the Western Australia Police Force Graffiti Team and the City of Ottawa, Canada.

Examples of best practise principles include the following:

- Ensuring that graffiti is removed as rapidly as possible
- Actively engaging with CPTED principles
- Applying a broad range of management tools, including graffiti mitigation
- Focusing on community strengthening opportunities in areas where graffiti is entrenched
We’ve investigated the best anti-graffiti education approaches

Council has reviewed the best methods of delivering anti-graffiti education programs to best result

Findings determined as a result of investigating best practise models have lead Council to focus on a community strengthening approach to graffiti management in our city. This emphasises focused work with vulnerable and young people in areas where graffiti is endemic – offering participation in graffiti mitigation programs and aiming to increase ownership and pride in local areas.

The 2016 census recorded 5,986 young people in our city between the ages of 10-19. In identifying and reaching out to the right groups anti-graffiti messaging can be better packaged and delivered at lower cost with less resource commitment. This has been found to be more cost effective and adept in reaching and diverting anti-social behaviour in groups that are more likely to transition to committing graffiti offences, as opposed to delivering blanket education to all.

Council supported mural by Liam Year at George Street, South Melbourne
Our Partners

To achieve meaningful improvements in the management of graffiti in our city Council needs to work in partnership with others. Our residents, traders, the Victorian Government, Victoria Police, neighbouring councils, transport providers and utilities suppliers will all play a crucial role.

Council values the support of our partners in helping us deliver outcomes outlined within this Plan, as we recognise we can’t achieve them alone. Some of the most significant improvements will rely on leveraging relationships with partners and working together to deliver outcomes - such as a collaborative approach to graffiti removal in our city, which will require support from State government as well as transport providers and utilities suppliers.

Council’s role

- **Trusted service provider** – providing high quality graffiti removal services, education and engagement programs to our community in order to achieve our priority outcomes in graffiti management.
- **Trusted partner** – Advocating and building partnerships with State, Federal and local government agencies, as well as commercial traders, community groups to deliver better outcomes for our community.
- **Trusted steward** – Investigating new ways of improving services, maintaining our infrastructure and public spaces for our community.
- **Monitoring and reporting** – checking in regularly on our progress to ensure we are on track to reach our goals.

Community’s role

- **Residents** – ensuring that they report graffiti to their property and reduce the likelihood of future graffiti hits by employing CPTED principles to their homes.
- **Traders** – reporting graffiti to their property and considering graffiti mitigation techniques. Where applicable reducing accessibility of graffiti writing products for illegal uses.
- ** Developers** – Engaging in CPTED principles for all new builds to reduce likelihood of graffiti. Also considering the use of appropriate hoarding to minimise graffiti during the build process.

Stakeholder agencies

- **Victoria Police/ Department of Justice** – Working alongside Council in sharing information to increase the apprehension of offenders.
- **Utilities Suppliers/ Transport Providers/ Government agencies** – Elevating their response and prioritisation of graffiti removal in our cities and working alongside Council to achieve this.
How we’ll get there

Within this section Council have set out determined policy outcomes developed as a result of:
community consultation, evaluation of graffiti statistics in our city and engaging with graffiti
management stakeholders and experts in the field.

Outcome 1: Trusted Service Levels

Offensive and/or Obscene Graffiti

Council will prioritise the removal of any graffiti deemed offensive and/or obscene (this includes
any marking which is defamatory or degrading about race, region, sexual preference and gender or
releases unwarranted details relating to personal privacy). Such graffiti will be removed within four
hours of notification.

Precinct Spaces and Public Amenities

Council will prioritise the removal of graffiti from our network of public toilets by way of a dedicated
patrol service. The patrol service will aim to monitor and remove graffiti at each site on a weekly
basis.

Council will facilitate swifter action on graffiti to precinct spaces by issuing coordinated notices
whereby graffiti removal services are opted out of as opposed to being opted into. This action will
be enacted at the following locations:

- Acland Street, St Kilda
- Bay Street, Port Melbourne
- Carlisle Street, Balaclava
- Clarendon Street, South Melbourne
- Fitzroy Street, St Kilda
- Tennyson Street, Elwood

Standard Service Levels

- Council will support the removal of graffiti to Council assets and private property.
- Council will act on graffiti removal requests within 5-10 business days.
- Council will not support the removal of graffiti to locations with limited passive surveillance,
e.g. vacant property or property under construction.
- Council will not support the removal of graffiti above three meters from the ground, or
where such removal will risk damage to the property, the environment or the safety of the
removal contractor.
- Council will offer alternatives to the graffiti removal service including graffiti removal kits.
- Removal of graffiti will be consistent with heritage conservation principles.
Outcome 2: Ease of Access for Services Offered

We will leverage new technologies to streamline reporting processes for our community and will actively communicate services offered.

Improving Customer Experience

Council will work with property owners and occupiers to secure permissions to remove any reported graffiti in a timely and straightforward manner.

Council will engage the community in understanding and responding to graffiti. Council will offer advice to our community on CPTED principles and how they might take action to reduce graffiti in their neighbourhood.

Council will continue to strive for operational improvements in supporting our community reporting graffiti. This will include but not be limited to enhancements in web based reporting functionality.

Case Study: Victorian Graffiti Register

Improving access to public reporting tools for our community

Council has work alongside the Municipal Association of Victoria (MAV) on the delivery of the new Victorian Graffiti Register. The Register will deliver a state-wide graffiti management tool and tracking system, including a public app which can be used by our community to quickly and easily report graffiti.

Council has participated actively on the steering committee for the state-wide introduction of this new tool – with the program scheduled to go live by mid-2019. The registry aims to support improved communication between agencies and councils, increasing the ability of local enforcement agencies to investigate and secure prosecutions against graffiti offenders.

How you can play your part: Download the Victorian Graffiti Register app and report graffiti in our city!
Outcome 3: Improvements in Liveability

The City of Port Phillip is an energetically creative place, welcoming and alive with activity. Council will harness this spirit and ensure that our community benefit from improvements in liveability achieved not only through graffiti removal but also as a result of a wide range of engagement and mitigation techniques.

Graffiti Mitigation

Council will continue to fund a Graffiti Mitigation through Street Art Program, with $60,000 committed to this program in 2018-2019.

Council will support and engage with community groups on pursuing grants to fund appropriate graffiti mitigation programs. Such programs will aim to use a range of approaches in reducing graffiti including: greening, landscaping, community strengthening and art based interventions.

Across our city Council will work collaboratively with a range of stakeholders both internally and externally to deliver place based programs to break the cycle of persistent graffiti.

Targets: Council will commit to the following mitigation programs to be delivered annually:

- 6 street art projects
- 1 greening program

Case Study: Little Grey Street

Use of broad programming to improve outcomes for our community

Council commenced a program of graffiti removal through Little Grey Street in April of 2018 in response to a Community Safety Audit held in March of the same year. The program approached the long-standing graffiti in the space in a holistic and coordinated manner and aimed to stagger Council’s response to deliver a successful outcome without affecting graffiti removal service levels to the wider community. Accordingly, over a period of five months Council completed the removal works, which has enabled contractors to act quickly and efficiently to any graffiti re-hits in the area.
Council has continued to work alongside local residents to ensure that any ongoing graffiti is removed, in order to break the cycle and eradicate graffiti in the space.

In conjunction with this graffiti removal program Council have concurrently worked towards a greening graffiti mitigation project in the adjacent Dalgety Street Reserve. This project has been funded by the Victorian Government’s Community Crime Prevention Program. Council has worked alongside local residents to develop a community gardens which will aim to increase passive surveillance in and around the area as well as strengthening community relationships. Following consultation, the gardens will be installed with the support of Men’s Shed working alongside the local residents who will act as custodians of the gardens going forward.

In addressing graffiti in this location via a multi-faceted approach Council have improved liveability and have made estimated savings of $30,000 – the figure quoted to remove all graffiti noted at the start of the program.
Outcome 4: Collaboration with Partners and our Community

To make a big impact on managing graffiti we will need to engage the support of our community and agency partners to ensure responses are coordinated and meaningful.

Capacity development and empowerment

Council will support activities to deliver education initiatives to our community on graffiti issues, including but not limited to the provision of graffiti kits and demonstrations as to their use, as well as the provision of site based advice on how home and business owners might take action to mitigate against graffiti at their properties.

Council will consider CPTED principles - in mitigating against graffiti - when managing, maintaining and developing existing and new assets. This will include but not be limited to: investigating uses and benefits of anti-graffiti coatings, paint and cladding, the integration of murals and appropriate choices in urban and product design.

Targets: Council will commit to the following community education and engagement events to be delivered annually:

- Quarterly community events dedicated to communicating Council’s services to our community and engaging our community on how they can reduce the impact of graffiti in their neighbourhood.

Advocating for a collaborative approach

Council will advocate for improved responses in graffiti removal from utilities suppliers and transport providers and will continue to work alongside other Government agencies on taking action against graffiti.

Council will continue to be an active partner within State and local forums and graffiti working groups. Such action will include Council’s support of the newly inaugurated Victoria Graffiti Register.

Case Study: Collaborative graffiti mitigation projects with utilities suppliers

Leveraging partnerships to deliver collaborative outcomes with greater reach and impact

Council worked alongside Ctipower and Vic Roads in 2018 to deliver a collaborative street art program focused on transforming street assets along the south end of Fitzroy Street in St Kilda. The program was funded by the asset owners and delivered in conjunction with Council’s Public Arts team who engaged the artist duo Creature Creature to paint nine units along the street.
Delivering holistic graffiti removal in our city is challenging due in part to the differing ownerships and responsibilities involved. For example, publicly owned assets are the responsibility of the asset owners to maintain. However, service levels offered by the asset owner to maintain their assets are often significantly lower than the service levels offered to our community by Council. Our community has communicated to us that the look and feel of our city often suffers as a result.

Council have worked hard to improve relationships with utilities suppliers, transport providers and other government agencies servicing our city in order to improve outcomes for our community. This program is an example of the collaboration in practice. Since the artwork has been installed there has been only one instance of graffiti to the units, which has been quickly and easily removed thanks to an anti-graffiti coating installed to protect the integrity of the treatment.

Advocating for state and federal funding to assist with collaborative outcomes

Council hopes to deliver further similar projects and will work with partner agencies to improve both the mitigation and removal of graffiti on such assets. This program will be subsidised thanks to the recent securing of funds from the Department of Treasury - via their Community Support Fund. This project is a joint venture of the Inner South Melbourne Mayoral Forum (ISMMF) and accordingly the City of Port Phillip are just one of a group of six Councils to benefit from the grant. This demonstrates the success of working collaboratively alongside our partners.

Funds will support a pilot program to enter into collaborative arrangements with select utilities suppliers and transport providers whereby Council will remove and mitigate against graffiti incurred to their public assets on their behalf. It is anticipated that this program will affect the following assets ownership groups: VicRoads, Metro Trains and CitiPower/United Energy.

This two year pilot program will not only deliver immediate results in our city, but will also allow Council to secure a data set and program evaluation results. These will be used to further advocate at State level for an ongoing future program. Council aim to leverage significant and lasting solutions as a result of the trial.
Outcome 5: Evaluation and Measuring of Success

Council will set measureable targets to ensure that our graffiti management plan is trusted, achievable and on track to deliver outcomes.

Council will actively monitor the efficacy of its graffiti management plan. Such monitoring will be evidenced and reviewed by data captured as part of the graffiti removal program. Council have set contract level KPI’s for the graffiti removal contract and will continue to monitor the success of these KPI’s to deliver the best service to our community.

Data captured through the graffiti removal program will also support the development of and planning for activities and mitigation programs. The regular review of data will also allow for reallocation of resources if deemed appropriate and within operational capacity. Council have set out the below targets within this Plan for graffiti mitigation programs these will be monitored on an annual basis to measure ongoing success:

**Graffiti Mitigation Targets:** Council will commit to the following mitigation programs to be delivered annually:

- 6 street art projects
- 1 greening program

Council will continue to research and enact best practise principles in graffiti management as knowledge in this arena progresses. Council will ensure they communicate our services and best practise in graffiti management at all available opportunities. To measure this success, Council have set out the below targets within this Plan for community outreach opportunities:

**Capacity Development Targets:** Council will commit to the following community education and engagement events to be delivered annually:

- Quarterly community events dedicated to communicating Council’s services to our community and engaging our community on how they can reduce the impact of graffiti in their neighbourhood.

*Edwards Park Art Project supported by the Victorian Government’s Community Crime Prevention Program*
Acknowledgements

The City of Port Phillip’s Maintenance & Operations, Cultural & Economic Development, Diversity & Inclusion, Future Communities, Placemaking, Open Space & Recreation Services, Customer Experience & Transformation, Place & Design and Family, Youth & Children have all provided input into this plan.

The Cities of: Banyule, Bayside, Bundoora, Casey, Darebin, Geelong, Glen Eira, Maribyrnong, Melbourne, Melton, Stonnington and Yarra have all been consulted in the development of this plan.

Thanks to: Sean Ling (Department of Justice), Christine Newman (Department of Justice), Jeffrey Smith (Department of Health & Human Services), Insp. Jason Kelly (Victoria Police), Sen Sgt. Ingrid Ebert (Victoria Police), John Hennessy (Municipal Association of Victoria), Danielle McCaffrey (StarHealth) and Kate Kelly (Port Melbourne Neighbourhood Centre).

Thank you also to the members of our community who provided us with their feedback and thoughts as part of the community consultation process.

**Community: graffiti awareness**

- Inform residents and businesses about the importance of graffiti management.
- Provide educational materials and workshops.

**Government: enforcement**

- Increase the frequency of inspections and enforcement actions.
- Provide resources to local government agencies to support enforcement.

**Partners: engagement**

- Engage with local businesses and communities to ensure their participation in graffiti management efforts.
- Provide resources and support to local businesses and communities.

**Resource**

- Increase funding and resource allocation for graffiti management initiatives.
- Provide training and support to local government agencies.

**Implementation and funding**

- Ensure adequate funding and resources are allocated for the implementation of the plan.
- Regularly review and adjust the plan as needed.

**Monitoring**

- Regularly monitor the effectiveness of the plan.
- Adjust the plan as needed to ensure its effectiveness.

**Evaluation**

- Evaluate the impact of the plan periodically.
- Use evaluation data to inform future planning and resource allocation.

**Community engagement**

- Engage with local residents and businesses to ensure their support and participation in graffiti management efforts.
- Provide resources and support to local residents and businesses.

**Enforcement**

- Increase the frequency of inspections and enforcement actions.
- Provide resources to local government agencies to support enforcement.

**Partnership**

- Engage with local businesses and communities to ensure their participation in graffiti management efforts.
- Provide resources and support to local businesses and communities.

**Resource allocation**

- Increase funding and resource allocation for graffiti management initiatives.
- Provide training and support to local government agencies.

**Implementation and funding**

- Ensure adequate funding and resources are allocated for the implementation of the plan.
- Regularly review and adjust the plan as needed.

**Monitoring**

- Regularly monitor the effectiveness of the plan.
- Adjust the plan as needed to ensure its effectiveness.

**Evaluation**

- Evaluate the impact of the plan periodically.
- Use evaluation data to inform future planning and resource allocation.

**Community engagement**

- Engage with local residents and businesses to ensure their support and participation in graffiti management efforts.
- Provide resources and support to local residents and businesses.

**Enforcement**

- Increase the frequency of inspections and enforcement actions.
- Provide resources to local government agencies to support enforcement.

**Partnership**

- Engage with local businesses and communities to ensure their participation in graffiti management efforts.
- Provide resources and support to local businesses and communities.

**Resource allocation**

- Increase funding and resource allocation for graffiti management initiatives.
- Provide training and support to local government agencies.

**Implementation and funding**

- Ensure adequate funding and resources are allocated for the implementation of the plan.
- Regularly review and adjust the plan as needed.

**Monitoring**
