Questions from Don Laird

Q1: On behalf of the Port Phillip Men's Shed Association, has the Council made provision for a Men's Shed in the Fishermans Bend development area?

Response

Thank you for your question through Council meeting on 14 February 2018.

As part of the draft release of the Strategic Framework and Community Infrastructure Plan from the Fishermans Bend Taskforce, there is no specific information about the provision of a men's shed in Fishermans Bend. However, there are a number of identified multipurpose spaces within the State Government plan that will have the ability to be flexible about the types of service offering that is made available. This is something that Council will be working with community partners and State Government on, to negotiate the types of spaces actualised over the coming years.

Our Assets and Property Department have been liaising with you to identify the needs of the men's shed program in Port Phillip and we will take these needs into consideration for opportunities within both Fishermans Bend, as well as, within existing Port Phillip. This area will keep in touch with you regarding these opportunities as they arise.

**Please note: answers to any questions in Public Question Time which were answered at the meeting are included in the minutes of that meeting.*
