

CLIMATE
ACTION
NOW

Along with the City of Port Phillip I declare a climate emergency

As part of my climate commitment, I will:

- Purchase certified GreenPower
- Divest from financial institutions that invest my money in the fossil fuel industry
- Eat less resource-intensive foods such as red meat
- Make my property more sustainable: plant trees, install solar and rainwater tanks, insulate and draught-proof
- Fly and drive less. Walk, ride and use public transport more
- Buy less disposable products, reduce my waste and recycle right
- Join local environmental groups
- Plan for increased extreme weather events such as heatwaves and flooding
