Public Question Time and Submissions

Question from Ciaran Wilcox:

Can Council please provide the full list of recommendations and/or works completed as part of the 2008 Building Condition Audit for the Elwood Childrens Centre?

Response:

Attached to this response is the 2008 Building Audit Data Sheet which outlines works to be done and estimated spend per year on against each trade service. Whilst it has been attempted to correlate Councils spend against each line item, the cost data from this time isn't broken down into a format that makes it easily transferable or comparable, making it difficult to precisely quantify and provide an accurate summary. Additionally, the time intensiveness of this exercise is not feasible for Officers.

Council have managed to break down some trades that clearly show Council has spent more than was proposed in the 2008 audit, for example:

Trade Service Recommended spend 2008 audit Actual Spend Painting (internal and external) \$35,235 \$65,505 Electrical Works \$19,784 \$54,226 Cleaning \$1,696 \$2,963 Fire Services \$4,450 \$6,558

Noting that these are operational, and maintenance spend only and do not include capital works.

Our actual spend data is already available on the have your say webpage (Proposal to sell three Council properties | Have Your Say Port Phillip) you will be able to see how much we have spent each year compared to what the audit recommends.

Council also note that the 2008 information is superseded by the recent Building Audit Condition report, which is also available on the Have Your Say page.

*Please note: answers to any questions in Public Question Time and Councillor Question Time which were answered at the meeting are included in the minutes of that meeting. DATA ENTRY SHEET Cira 1920 GFA 32:Actual Co Activity No: 1=Backlog 2=Cyclic 3=Prd Priority 1= WH & S
