---

**Question from Teresa Warren**

When would the Council be repairing the footpath near the intersection of Coventry Street and Clarendon Street, South Melbourne?

**Response**

Both sides of Coventry Street footpath were inspected on 5 December 2017. Video footage has been obtained and filed in Council's Record Management System.

Some sections of the footpath require maintenance work with minor tree root damage in occurring spasmodically. The condition overall of the footpath is 3 out of 5, meaning that with a good maintenance program the path has between 5 to 10 years of useful life left.
