

5. Councillor Question Time

Question from Councillor Marcus Pearl

Would it be possible to find out if any houses or personal property that is in the vision of the CCTV is blanked in Westbury Street as we have under standard policy, given the footage is being retained?

Were we aware of the CCTV, and is it being used for any law enforcement purposes?

Question from Councillor Heather Cunsolo

Could we have a list of where the other CCTV locations are?

Response:

The CCTV has been installed to enable monitoring and evaluation activities to occur to capture the following:

1. User legibility and comprehension
2. Near misses & queue lengths
3. Cyclist, pedestrian, and vehicle counts

CCTV has been installed at the following 5 locations in CoPP:

Site	Location	Details	Map
1	Westbury St at Inkerman St	Westbury St north of Inkerman St looking north; or mid-block between Inkerman and Alma, facing either direction	LINK
2	Armstrong St at Richardson St	At Erskine St facing SW toward Richardson St	LINK2
3	Glen Huntly Rd at Barkly Pde	Glen Huntly Rd facing west. Limited data collection requirements, more important to capture video of all movements at intersection with Marine Pde	LINK3
4	Jacka Blvd at Cavell St	Jacka Blvd facing Nth, ideally capturing footage of intersections with Cavell and Shakespeare Gve, focus on SB cyclist counts	LINK4
5	Bridge Rd at Sandridge Trail	Bridge St facing SE toward roundabout at Princes St.	LINK5

Footage is stored in the Traffic Survey Company cloud under password protection and DoT's privacy policy. Footage will be destroyed following the program evaluation.

**Please note: answers to any questions in Public Question Time and Councillor Question Time which were answered at the meeting are included in the minutes of that meeting.*
