Chris Carroll	Chief Executive Officer	Staff Member	Other	Not Applicable	3/07/2024	St Kilda Marina	Potential/Perceived Exemption Applies	While I do not have an interest in the Marina, I am disclosing that my partner is a managing director at TEG Sport and Experiences, a live event promoter with operations in and outside of Australia. One of the investors behind the successful St Kilda Marina long term lease is managing director of TEG Van Egmond, a company owned by TEG. To my knowledge, TEG do not have an interest in the Marina and neither my partner or I have any personal relationship with the managing director of TEG Van Egmond. Their professional work is also very separate.
Karla Coombes	Coordinator Family Services	Staff Member	Other	Not Applicable	17/06/2024	Service Contractor - Fka Childrens Services	Potential/Perceived	I am a board member on a not-for-profit organisation with a fairly niche range of services. In late 2023 Council applied for a State Government grant under the Dept of Health. The application was a joint collaboration from the Community Services team and Families Youth and Children. The application was successful with the total value of the grant being \$395k over 4 years. The application included the use of FkaCS services to strengthen the outcomes of the project at an approx. value of \$3,800 per year for 3-4 years. FkaCS would be used to provide training and cultural expertise to partners in the program and Council would be a member of the FkaCS multicultural library that specialise in resources relevant to bi-lingual children. There is no other organisation that do this in Victoria. It was Council's intention that if successful, the libraries team would manage the project (evidence available) however it was noted by the time we were advised of our success that libraries could no longer manage the project. I identified a small capacity in my team and it was agreed by the project sponsors that FYC would lead it in the first 6 months to get the project up and running and then confirm it's longer term structure in early 24/25.

Karen Miller	Manager Project Delivery	Staff Member	Preparation of a Report	Not Applicable	8/05/2024	Park St Bike Link and Road reconstruction projects	Material Conflict of Interest	My home address is close to the proposed project location. I have been involved in discussions and meetings regarding the project over the past 2 years with respect to adherence to project management processes, assignment of resources and advice on procurement options. I have always declared that I live nearby. The project has reached the stage of a decision to release tender documentation for construction. My role as Manager Project Delivery, requires me to approve the Business Case to go to EGG for approval, approve procurement evaluation reports through my financial delegation and submit reports to Council when contract awards are greater than \$1M. In discussion with Procurement and my General Manager we have determined that now the project has reached these decision stages that I should excuse myself from the decision making due to what may be construed as a potential conflict of interest.

Lachlan Johnson	General Manager Operations and Infrastructure	Staff Member	Panel Member	Procurement Panel	23/04/2024	RFT 232 - Network Links and Services Tender Award	Exemption Applies	I have a risk of a perceived material conflict of interest in that I hold Telstra shares of a total value of less than \$10,000 as at 23 April 2024. The matter in which I am exercising delegated authority relates to the award of network links and services of which Telstra was a tenderer. I note that they are not the recommended tenderer. I have concluded that whilst I have a material interest in this matter, I do not have a conflict because of s129(a) and s129(b) exemptions in that it is of a remote nature (Telstra has a market capitalisation of \$42.75 billion dollars (as at 23 April 2024), and \$17.7 billion dollars of shares, and I am one of over one-million individual and institutional investors in Telstra.
