6. PUBLIC QUESTION TIME

James Woollett

- Regarding the Middle Park Public Consultation Meeting, will Councillors Baxter, Brand, Crawford, Copsey, Simic and Voss, and Council Officers Jeffs, Hart, Tyquin, Schernickau, Nolan and McCook be attending the public meeting next Tuesday and responding to questions and submissions from the floor?
- The community meeting held on 13 February 2018 considers a matter of significant public interest, will Council confirm that press and other media will not be excluded from the meeting?

The Mayor, Cr Voss, responded that the meeting was open to all councillors and that they would attend if they wanted to.

Peter Smith, Chief Executive Officer, responded that relevant staff would be present to answer all questions.

The Mayor, Cr Voss, stated that the current council policy is that media do not attend council meetings, and that this will be the same the meeting in question.

- Confirming that this is a public meeting that the council will not allow media to attend?

The Mayor, Cr Voss, responded that she would take that question on notice.

Harry Williams

- In consideration of the alcohol ban report, can Council consider further effective policing – examples of dogs off leashes, blatant ignoring of parking signs – around existing regulations in the area?

Fiona Blair, General Manager Infrastructure and Amenity, responded that increased patrolling along the foreshore had been in practise over the summer. In relation to the specific areas that had been identified, Council Officers would be in contact with Mr Williams directly.

Don Laird

- On behalf of the Port Phillip Men's Shed Association, has the Council made provision for a Men's Shed in the Fishermans Bend development area?

Claire Ferres Miles, Acting General Manager Community & Economic Development, responded that there was a significant challenge in the Fishermans Bend project to identify the community services needed within the City. The Council had recently applied for funding for Community group spaces within the precinct, of which the Men's Shed has been identified as a potential tenant. Officers will communicate directly with Mr Laird to provide further details of the application.

MINUTES - ORDINARY MEETING OF COUNCIL - 7 FEBRUARY 2018

Peter Holland

- In regards to the St Kilda Marina finances, is the estimate of Council receiving in excess of \$500,000 on a “like for like” basis? Or does it include a contribution from all the sub-leases?
- Is there any legal impediment to relocating the marina’s weather station?
- Will Council commit to releasing the Memorandum of Understanding with the State Government on the marina lease process?

Jo McNeill, Manager Asset Management & Property, responded that in regards to the first question, the estimate of value was based upon the marina staying as it is with all the current sub-leases, and is a high-level estimate.

In regards to the second question, the possible relocation of the weather station will be considered in the current planning and analysis of the site.

Concerning the third question, there is no Memorandum of Understanding for the marina, it is Crown Land for which the Council is the committee of management. The leasing process is taken in partnership with State Government.

Michael Sabada

- In regards to the Middle Park Library Public Consultation Meeting, what is the seating capacity of the Middle Park Community Centre Hall?
- Given that the meeting regarding Middle Park Library is being held at the Port Melbourne Town Hall, what is the estimate from officers of the impact upon attendance by residents local to Middle Park?
- Why was no consideration given to using alternate venues, such as the South Melbourne Town Hall, that were more accessible to Middle park residents?

Claire Ferres Miles, Acting General Manager Community & Economic Development, responded that the Middle Park Community Centre has a seating capacity of 60 people. Officers anticipate a greater number of attendees, and therefore made the decision to relocate to an alternative venue.

Council Officers investigated six venues as possible locations for the meeting space, and the Port Melbourne Town Hall was deemed the most appropriate due to availability and accessibility.

In regards to community access, officers are aware that Port Melbourne Town Hall isn’t centrally located to Middle Park residents, however a community bus will be provided to shuttle people from the Middle Park Library to the Port Melbourne Town Hall. This service will be publicised through multiple Council and community channels.

7. COUNCILLOR QUESTION TIME

Cr Pearl

- Regarding the application for funding for a men's shed in the Fishermans Bend precinct, how much money has been asked for? Has it been Council-endorsed? Has this request been discussed with the Men's Shed Association?

Mandy Bow, Infrastructure and Service Planner, responded that discussions regarding requirements for community facilities at Fishermans Bend were still very much in their early stages. At this stage funding hasn't been specifically asked for, but rather discussion of a contribution towards community developments.

Chris Carroll, General Manager Customer and Corporate Services, replied that there were currently several teams looking at Fishermans Bend planning. In the past week, additional conversations have been had around a Men's Shed and their requirements in Port Melbourne.

Peter Smith, Chief Executive Officer, added that previous advice to Council on the Inner Metro Sustainability Hub had also included discussions on the inclusion of a Men's Shed facility.

- Has this been discussed with the Men's Shed Association?

Chris Carroll, General Manager Customer and Corporate Services, responded that current discussions were exploring what opportunities there might be for communal facilities.

Peter Smith, Chief Executive Officer, added that discussions are currently at conceptual stages and have not yet progressed to the point of incorporating the Men's Shed

Cr Gross

- Is it true that many of our waste-streams in the recycling section of our waste processing will be unaffected by the reports of the changes to Australia's trading relationship with China?
- Could officers provide a description on the contract Council has with SKM, and how they will deal with glass?

Brett Walters, Acting General Manager Place Strategy and Development, responded that China's decision to reject less-pure waste streams had been impending for some time, and SKM is a recycling contractor who has made recycling changes that respond to China's decision. The City of Port Phillip is three years into a ten year contract with SKM, consequently the impact of China's decision is negligible. SKM will be deploying new sorting processes which will help them deal with recyclables such as glass more effectively.

- To follow-up, is our city's recycling working, and tied into a long-term contract which is delivering results?

MINUTES - ORDINARY MEETING OF COUNCIL - 7 FEBRUARY 2018

Brett Walters, Acting General Manager Place Strategy and Development, responded that this was correct, and that he encouraged everyone to continue sound recycling habits.

Cr Copsey

- Is Council encouraging the use of supermarket plastic bag recycling facilities?
- Has Council considered introducing organics recycling, and providing residents with organics recycling bins?

Fiona Blair, General Manager Infrastructure and Amenity, responded that Council encourages the drop-off of plastic bags through the supermarkets. In regards to providing organics bins, officers are currently reviewing the possibility of a pilot program that would come under the 2018/2019 Budget.

- What action has Council taken to enforce the ban of glass along the foreshore?
- How many fines have been issued since the bans came into place, issued either by Council Officers or the Police?
- What litter monitoring is in place to assess the effectiveness of the ban? And how much has glass litter reduced since the introduction of the ban?

Fiona Blair, General Manager Infrastructure and Amenity, responded that Council has Summer Rangers in operation across the city focussing on the foreshore area. With the addition of increased local laws and amenity staff, both sectors have taken an educational approach to people in the area. Locals laws staff have spoken to approximately 277 people regarding the new bans, with the majority of people being receptive to the information.

Summer rangers monitor the amounts of litter, and asses amounts in comparison to other years. In terms of specific glass litter reduction, there currently isn't any previous data to compare against, so it is not possible to assess whether there has been a reduction since the implementation of the ban. The ban has only been very recently implemented, so there is still a lot of work to be done upon how this is communicated to people.
