

**City of Port Phillip**  
**Register of Lanes with Discontinuances**

The City of Port Phillip is undergoing an audit of the lanes on its Road Register, in advance of the implementation of a new information and asset management system. The purpose of this audit is to ensure that the Road Register complies to the statutory requirements of the Road Management Act 2004, and to protect the communities assets. All Lanes, footpaths and Rights of Way that have become public roads in the City of Port Phillip whether it be by a Notice in the Victorian Government Gazette under a previous Council, under Common Law principles or by Declaration by Council as part of the Road Management Plan, are contained herein. Roads that have been discontinued are also identified in the Register as required.

The Road Register will be updated after any new road is added or a road is closed.

References to lane alternate names SM and SK relate to the inventory Maps of the old Councils of South Melbourne and St Kilda.
