

Public Question Time – answers to questions taken on notice*

Questions from Geoffrey Conaghan

- Q1: Can Council please advise on continuous improvement initiatives with resident amenity in mind, not on the successful delivery of a particular event?
- Q2: Would the review on continuous improvement initiatives include complaints mechanisms?
- Q3 Will Council consider the invitation for noise level monitoring to occur in resident homes?

Response

Our event noise guidelines have been updated since last event season by a qualified acoustic engineer with the brief to ensure compliance and minimise impacts to residents. These guidelines are available on our website.

<http://www.portphilip.vic.gov.au/promotional-permit-applications.htm>

Council is committed to supporting events and local amenity, therefore we are happy to work with you throughout this season to seek feedback after major events (inclusive of complaints mechanisms) and undertake targeted noise monitoring (inclusive of noise monitoring in resident homes) in consultation with you to further enhance our noise management controls for events.

The events team will be in contact with you to progress our offer of ongoing feedback and targeted noise monitoring.

**Please note: answers to any questions in Public Question Time which were answered at the meeting are included in the minutes of that meeting.*
